PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** microservices, handling core business logic and integrating with downstream systems via REST APIs.
- Engineered **Python** scripts to automate data extraction and transformation tasks, improving the efficiency of reporting cycles by an estimated **15%**.
- Managed production incidents for enterprise applications, performing root cause analysis and implementing fixes within strict SLAs, impacting approximately **5000** end-users.
- Designed and implemented **SQL** queries and stored procedures for data validation and manipulation across **PostgreSQL** and **Oracle** databases.
- Contributed to the development of a **payments operations dashboard**, focusing on transaction monitoring and alerting for operational workflows.
- Containerized several **Java** applications using **Docker**, facilitating smoother deployments and consistent environments on **AWS EC2** instances.
- Collaborated with cross-functional teams in an **Agile/Scrum** environment, participating in sprint planning, code reviews, and defect tracking using **Jira**.

SKILLS

Languages – Java, Python, SQL, R

Frameworks/Libraries – Spring Boot, pandas, NumPy, scikit-learn

Databases – PostgreSQL, MySQL, Oracle

Cloud/DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Tools/Platforms – Power BI, Tableau, Splunk, Dynatrace, Jira, Confluence

Domains – Data Analytics, Enterprise Systems Support, Payments Operations

PROJECTS

Enterprise Java Application Support and Enhancement

- Provided production support for critical **Java** applications, resolving P1/P2 incidents and ensuring application stability within defined SLAs.
- Developed new features and bug fixes for existing **Spring Boot** services, including the implementation of new REST endpoints and data persistence logic using **Hibernate**.
- Automated routine system checks and log analysis using **Python** scripting, reducing manual effort for the operations team by approximately **10 hours** per week.

MSc Data Analytics Capstone: Customer Churn Prediction Model

- Developed a **Python** data pipeline to extract, clean, and transform customer data from multiple sources for analysis and model training.
- Trained a **scikit-learn** logistic regression model to predict customer churn, achieving an AUC of **0.78** on a dataset of 50,000 customer records.
- Created interactive **Power BI** dashboards to visualize key customer segments and churn drivers, presenting findings to academic stakeholders.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
