PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **TypeScript** and **React** components for the Financials Platform, integrating them into the core Workday suite to enhance user experience for millions globally.
- Collaborated with other team members through **pair programming** and **code reviews**, contributing to a positive and inclusive team environment within an agile, continuous delivery framework.
- Designed and implemented **unit and integration tests** that run automatically on the continuous delivery pipeline, ensuring high-quality and reliable software delivery.
- Wrote and maintained **REST APIs** in **Java Spring Boot**, supporting cross-service data exchange and ensuring robust error handling with circuit-breaker patterns.
- Engineered **Python scripts** for data pipeline automation and ETL processes, improving data ingestion efficiency for downstream analytics.
- Containerized backend services using **Docker** and deployed them to a **Kubernetes** cluster (EKS), configuring resources and managing deployments via Helm charts.
- Managed production incidents for enterprise applications, performing root cause analysis and implementing fixes within strict SLA parameters, reducing critical incident resolution time by an average of **18%**.

SKILLS

Frontend Frameworks – React, TypeScript, HTML5, CSS, JavaScript

Backend Languages – Java, Spring Boot, Python

Databases – PostgreSQL, MySQL, Oracle

Cloud & Containerization – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes

CI/CD & Tools – Jenkins, Git, Jira, Confluence

Data & Analytics – Power BI, Tableau, SQL, pandas, NumPy, scikit-learn

PROJECTS

Financial Application UI Component Library

- Developed a reusable **React** component library using **TypeScript** for the Financials Platform, enabling rapid development of consistent user interfaces across Workday's financial products.
- Implemented **unit tests** using Jest and React Testing Library, achieving over **90%** code coverage for all new UI components.
- Collaborated with UX designers and product managers to translate requirements into functional UI elements, ensuring adherence to **UX best practices** and delivering a user-centered solution.

Automated Data Pipeline for Transaction Reconciliation

- Engineered a **Python**-based ETL pipeline to process and reconcile high-volume financial transaction data from multiple sources, reducing manual reconciliation effort by approximately **40%**.
- Integrated the pipeline with **PostgreSQL**, designing database schemas and writing SQL queries for efficient data loading and validation.
- Scheduled and monitored pipeline execution using **Jenkins**, ensuring timely delivery of reconciled data sets for operational reporting.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
