PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** REST APIs for backend services, handling cross-system integrations and data exchange, processing approximately **1,500 requests per minute**.
- Wrote and optimized **SQL queries** across PostgreSQL and Oracle databases for data extraction and validation, supporting ad-hoc reporting needs for enterprise systems.
- Automated data ingestion and transformation processes using **Python scripting** and pandas, reducing manual effort for scheduled reporting by an estimated **40%**.
- Contributed to the design and implementation of features for a **payments operations dashboard**, focusing on transaction monitoring and operational alerting for failed messages.
- Collaborated with cross-functional teams to support and integrate with **enterprise ERP modules** and operational platforms, managing change control for system configurations.
- Containerized **Java Spring Boot** applications using **Docker** for consistent deployment across development and production environments on AWS.
- Managed production support for enterprise applications using **Splunk** and **Dynatrace**, participating in incident response for P1/P2 issues and SLA management.

SKILLS

Languages – Java, Python, SQL, R, HTML, CSS

Frameworks & Libraries – Spring Boot, Hibernate, JPA, pandas, NumPy, scikit-learn, Flask, FastAPI, React, Angular

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Jira, Confluence, Linux

Databases – PostgreSQL, MySQL, Oracle

BI & Analytics – Power BI, Tableau, DAX, Power Query, data modelling, data warehousing, statistical analysis

Domain Knowledge – Payments operations dashboard, transaction monitoring, reconciliation workflows, ERP integration support, change management

PROJECTS

Enterprise Systems Integration Platform (HCL Technologies)

- Designed and built **Java Spring Boot** microservices to facilitate data flow between an ERP system and downstream operational platforms, utilizing **JPA** for persistence with a **PostgreSQL** backend.
- Implemented RESTful APIs for seamless integration, enabling bi-directional data synchronization and reducing data latency by **~30%** for critical business reports.
- Developed comprehensive unit tests using **JUnit**, achieving over **85% code coverage** to ensure service stability and reliability.

Financial Transaction Monitoring Dashboard (HCL Technologies)

- Developed backend logic in **Python** to process and aggregate transaction data streams for a financial services operations dashboard, focusing on identifying reconciliation discrepancies.
- Created automated data pipelines to ingest and cleanse data from multiple sources, improving data quality for operational alerting by **~20%**.
- Collaborated with business analysts to gather requirements for transaction flow monitoring and alert configuration, ensuring alignment with operational needs.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
