PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Prepared monthly management accounts and financial reports for a portfolio of clients, ensuring accuracy and adherence to internal deadlines.
- Supported budgeting and forecasting processes by compiling data from multiple sources and identifying key variance drivers, contributing to a **15% improvement** in forecast accuracy for the team.
- Executed financial analysis and variance reporting, presenting findings on key performance indicators to senior finance professionals to inform business decision-making.
- Reconciled balance sheet accounts, investigating and resolving discrepancies across **multiple financial systems**, maintaining data integrity for internal controls.
- Assisted with year-end audit preparation, gathering supporting documentation and liaising with external auditors to facilitate a smooth audit process.
- Managed financial records and ensured compliance with internal controls, implementing procedural updates that reduced data entry errors by **~10%**.
- Collaborated with cross-functional teams, including operations and business analysts, to support ad hoc financial tasks and process improvement initiatives within the finance function.

SKILLS

Accounting & Finance – Management Accounts, Financial Reporting, Budgeting, Forecasting, Financial Analysis, Variance Reporting, Balance Sheet Reconciliation, Audit Preparation, Internal Controls

Software & Tools – Microsoft Excel, Power BI, Tableau, Jira, Confluence, Splunk, Dynatrace, Jenkins, Git

Programming & Databases – Python, Java, SQL, Spring Boot, PostgreSQL, MySQL, Oracle

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux

Analytics & Data – Data Analytics, Data Modelling, ETL, Data Validation, R, pandas, NumPy, scikit-learn

PROJECTS

Financial Reporting Automation (HCL Technologies)

- Developed Python scripts to automate the generation of weekly financial reports from multiple database sources, reducing manual effort by **~6 hours per week**.
- Integrated data from **PostgreSQL and Oracle** databases, performing data cleaning and transformation using pandas before populating into reporting templates.
- Implemented automated data validation checks to ensure accuracy and consistency of reported figures, catching approximately **90% of data anomalies** before report generation.

MSc Applied Data Analytics Project (NCI)

- Designed and built interactive **Power BI dashboards** to visualize key financial metrics and trends for a simulated business case study.
- Performed data extraction, transformation, and loading (ETL) using **Power Query** and applied data modelling techniques to structure data for analysis.
- Presented findings and dashboard insights to academic stakeholders, demonstrating the application of business intelligence principles to financial data.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
