PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Assisted senior engineers with the installation of **structured cabling** and **telephony systems** at enterprise customer sites, ensuring adherence to project specifications.
- Supported the remote configuration and troubleshooting of **on-premise and cloud-based phone systems**, diagnosing and resolving technical issues to maintain service continuity.
- Collaborated with senior engineers and **customer-facing teams** to deliver on-site technical support and project installations, maintaining clear communication channels.
- Executed Python scripts to automate data extraction for operational reporting and assisted with the initial stages of **ETL processes**, improving data availability for analysis.
- Performed production support for enterprise applications, analysing logs in **Splunk** and monitoring system health via **Dynatrace** to respond to P1/P2 incidents.
- Contributed to the development of **Java Spring Boot** REST APIs for internal systems, focusing on bug fixes and implementing new feature functionalities.
- Containerised Java applications using **Docker** and managed deployments within an **AWS EC2** environment, ensuring consistent operational performance.

SKILLS

Telephony – PBX systems, Hosted telephony, Structured cabling, Telecom systems

Networking – LAN, IP basics, Routers

Software Development – Java, Spring Boot, REST APIs, Python, Scripting

Cloud & DevOps – AWS EC2, Docker, Jenkins, Git

Monitoring & Support – Splunk, Dynatrace, Incident response, Troubleshooting

Databases – SQL, PostgreSQL, MySQL, Oracle

PROJECTS

Telecoms Infrastructure Installation Support

- Provided on-site assistance for the installation of **structured cabling** and **telephony equipment** across multiple business locations, working under the guidance of lead technicians.
- Supported the configuration of **VoIP systems** and **PBX hardware**, ensuring proper network integration and initial system setup for new client deployments.
- Documented installation procedures and assisted with initial system testing to verify functionality and adherence to technical requirements for enterprise clients.

Customer Site Network & System Troubleshooting

- Diagnosed and resolved **network connectivity** and **system faults** for business customers, both remotely via diagnostic tools and on-site when necessary.
- Assisted in the deployment and configuration of new **customer IT infrastructure** components, including routers and basic network setups, ensuring minimal disruption.
- Communicated technical solutions and status updates clearly to customers and internal project managers, ensuring a high level of service satisfaction.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
