PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Reviewed and analyzed screenshots of diverse software interfaces, identifying UI elements and interpreting user workflows with precision, directly supporting AI model training.
- Evaluated and annotated AI model responses, strictly grounding judgments in observable evidence from screenshots and documenting clear, well-reasoned explanations.
- Completed structured annotation and data review tasks across dashboards, forms, and various web applications, adhering to established guidelines and quality standards.
- Collaborated with the customer's team to provide high-quality, actionable feedback that directly impacted AI model improvements, ensuring accuracy and consistency.
- Distinguished between observable evidence and assumptions in technical interfaces, contributing to the development of more reliable AI systems.
- Managed time effectively and prioritized tasks to meet deadlines in a remote work environment, ensuring timely delivery of annotated datasets.
- Analyzed production logs using **Splunk** and **Dynatrace** to identify root causes for P1/P2 incidents, contributing to a **15% reduction** in critical alert response time.

SKILLS

UI Analysis – Screenshot analysis, UI interpretation, Workflow analysis, Data annotation

Quality Assurance – Attention to detail, Accuracy, Consistency, Guideline adherence

Communication – Written communication, Verbal communication, Technical writing, Explaining findings

Technical Proficiency – Computer literacy, Digital tools, Web applications, Remote work tools

Analysis & Reasoning – Evidence-based assessment, Assumption distinction, Problem-solving

Software & Tools – Jira, Confluence, Linux, Shell scripting, Git

PROJECTS

AI Data Reviewer for Enterprise Dashboards

- Analyzed over 500 screenshots of enterprise dashboards and CRM tools, identifying key UI elements and user interaction patterns to train AI models.
- Annotated AI model responses based on visible evidence, distinguishing between accurate interpretations and assumptions, and documenting findings with clear reasoning.
- Provided structured feedback on UI interpretations and workflow accuracy to the AI development team, contributing to refinement of annotation guidelines.

Automated Production Incident Triage System

- Developed Python scripts to parse logs from **Splunk** and **Dynatrace**, automatically categorizing alerts and reducing manual triage effort by **30%**.
- Implemented alert correlation logic to group related incidents, decreasing the noise from P1/P2 events and improving focus on critical issues.
- Integrated script outputs into Jira ticketing system, creating actionable tickets with pre-populated diagnostic information for faster resolution.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
