PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Reviewed and critically assessed AI-generated text outputs for quality, clarity, and adherence to user experience guidelines, identifying over 50 distinct areas for model improvement across diverse content types.
- Applied structured evaluation guidelines to provide insightful, nuanced feedback on AI model performance, contributing to the refinement of scoring criteria and review processes.
- Collaborated with a cross-functional team to define and continuously enhance evaluation workflows and best practices for AI training data quality.
- Developed and maintained high accuracy and consistency across a volume of 500+ evaluations per week, ensuring reliable and actionable results for model training.
- Supported the development of annotated training data that directly enhanced AI system performance and reliability, focusing on natural language understanding tasks.
- Participated in daily stand-ups and sprint planning sessions, providing input on quality standards and adapting to new evaluation workflows and content types.
- Authored detailed documentation and examples for new evaluation guidelines, which were adopted by the customer's team to onboard new AI evaluation specialists.

SKILLS

AI Evaluation – Quality Assessment, Clarity Evaluation, Usability Testing, User Experience Review, Content Analysis, Visual Assessment

Communication & Collaboration – Written Communication, Verbal Communication, Cross-functional Collaboration, Feedback Provision, Requirements Refinement

Data Annotation & QA – Annotation Workflows, QA Processes, Moderation, Data Quality Assurance, Training Data Development

Critical Thinking & Judgment – Critical Assessment, Observational Skills, Editorial Judgment, Ambiguous Scenarios, Detail-Oriented

AI & Machine Learning – AI Systems Training, Model Improvement, Emerging AI Technologies, LLMs

Workflow & Process Improvement – Evaluation Workflows, Best Practices, Process Enhancement, Continuous Improvement

PROJECTS

AI Content Quality Assessment Framework

- Designed and implemented a structured framework for evaluating AI-generated text, focusing on accuracy, coherence, and user engagement across multiple content domains.
- Developed detailed scoring rubrics and quality standards based on user experience principles, leading to a **30% reduction in ambiguous feedback** across the evaluation team.
- Conducted rigorous testing and refinement of the framework through collaboration with UX researchers and AI model developers.

LLM Output Annotation for Nuanced Feedback

- Annotated large volumes of LLM-generated responses, categorizing outputs based on factual correctness, tone, and adherence to specific prompt constraints.
- Provided detailed, qualitative feedback on model weaknesses and potential biases, contributing to datasets used for fine-tuning conversational AI agents.
- Documented common failure modes and proposed actionable insights for improving model generalization and reducing repetitive or nonsensical outputs.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore,
India**

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
