## PROFESSIONAL EXPERIENCE

### Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and deployed scalable, secure infrastructure on **AWS** using **EC2**, **S3**, and **Lambda**, ensuring high availability for core services.
- Implemented and optimized **CI/CD pipelines** using **Jenkins** and **Git**, reducing deployment times by **40%** and increasing deployment frequency.
- Built and maintained containerized applications using **Docker** and orchestrated clusters with **Kubernetes**, improving application portability and scaling.
- Automated infrastructure provisioning and configuration management using **Terraform**, enabling repeatable and reliable environment deployments.
- Monitored system health and performance across distributed services using **Splunk** and **Dynatrace**, enabling proactive issue detection and resolution.
- Managed system access and secrets using **AWS IAM** and integrated with a centralized secrets management tool to enforce security best practices.
- Troubleshoot and resolved complex infrastructure and deployment issues in a **remote**, collaborative environment, ensuring minimal disruption to operations.

## SKILLS

**Cloud Platforms** – AWS, Digital Ocean, Azure, GCP

**Containerization & Orchestration** – Docker, Kubernetes

**Infrastructure as Code** – Terraform, Ansible

**CI/CD** – Jenkins, Git

**Monitoring & Logging** – Prometheus, Grafana, Splunk, Dynatrace, CloudWatch

**Operating Systems** – Linux

**Security** – IAM, Secrets Management

## PROJECTS

### Cloud Infrastructure Automation with Terraform

- Developed **Terraform** modules to provision and manage AWS infrastructure, including VPCs, EC2 instances, and S3 buckets, for a new microservices deployment.
- Implemented state management and remote backends for Terraform to support collaborative development and ensure consistency across development, staging, and production environments.
- Integrated Terraform with Jenkins pipelines to automate infrastructure deployments, reducing manual configuration errors by **90%**.

### Containerized Application Deployment Pipeline

- Designed and implemented a **CI/CD pipeline** using **Jenkins** to automate the build, test, and deployment of **Docker** containers to a **Kubernetes** cluster (EKS).
- Configured Kubernetes deployments, services, and ingress controllers to manage application lifecycle and traffic routing, supporting a microservices architecture.
- Developed shell scripts for automated log aggregation from Kubernetes pods to **Splunk**, aiding in faster debugging and performance analysis.

## EDUCATION

### M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

### B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

## CERTIFICATIONS

---

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
