PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Contributed to the production of risk reporting by gathering and synthesizing data from various sources for the Enterprise Risk Management framework.
- Assisted in the Risk Governance process, coordinating information flow and contributing to reports for Risk Oversight Committees.
- Supported the 2nd line review and challenge activities by completing Risk Assessments and tracking improvement actions for identified risks.
- Developed Python scripts to automate data collection and aggregation for operational reporting, reducing manual effort by approximately **30%**.
- Collaborated with cross-functional teams to support the adoption of Group Risk Management tools and methodologies within the business units.
- Contributed to the development of training materials and delivered communications to promote risk culture awareness across the organization, enhancing engagement metrics by **15%**.
- Managed production support for enterprise applications using **Splunk** and **Dynatrace**, ensuring SLA adherence and responding to P1/P2 incidents.

SKILLS

Risk Management – Enterprise Risk Management (ERM), Risk Assessment, Risk Reporting, Risk Governance, Emerging Risks, Risk Culture, Insurance Regulation

Business Analysis – Requirements Gathering, Stakeholder Management, UAT Support, Process Improvement, Policy Development

Data Analysis & Reporting – SQL, Python, Power BI, Tableau, Data Modelling, DAX, Power Query

Programming & Scripting – Python, Java, Spring Boot, SQL

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux

Development Tools & Methodologies – Git, Jenkins, Jira, Confluence, Agile/Scrum

PROJECTS

Financial Operations Dashboard Enhancement

- Developed **Python** scripts to automate the parsing and aggregation of transaction data from multiple sources for a financial-services operations dashboard.
- Designed and implemented **SQL** queries (PostgreSQL) for data validation and reconciliation workflows, improving data integrity for operational reporting.
- Collaborated with business analysts to refine alerting mechanisms for failed payment messages, contributing to a **10%** reduction in critical alert noise.

MSc Data Analytics Applied Project

- Created interactive **Power BI** dashboards visualizing key performance indicators for a simulated business case, enabling stakeholders to identify trends.
- Performed exploratory data analysis and statistical modelling using **R** and **Python** (pandas, NumPy) to derive insights from a **50,000-row** dataset.
- Applied data modelling techniques and **DAX** measures to build a comprehensive data model supporting multi-dimensional analysis in Power BI.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
