PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and executed comprehensive test cases for new features, ensuring alignment with product requirements and achieving **~90% coverage** for critical user workflows.
- Developed and maintained **Python** automation scripts for **API testing** using **Postman**, reducing manual regression testing effort by **40%** per release cycle.
- Implemented **Web UI automation** scripts with **Playwright** to validate complex user interactions and handle dynamic elements, increasing test suite stability by **15%**.
- Collaborated with **Java** development teams to clarify acceptance criteria for user stories, assessing test feasibility and contributing to **sprint planning** estimations.
- Analyzed test results, documented defects in **Jira** with detailed reproduction steps, and tracked issues through to resolution, supporting the timely release of **3 major product updates**.
- Integrated automated test execution into **Jenkins CI/CD pipelines**, enabling faster feedback loops and reducing the time to identify regressions by approximately **2 days**.
- Containerized test environments using **Docker**, ensuring consistent execution across development and staging, and deployed test runners on **AWS EC2** instances for parallel execution.

SKILLS

Automation Testing Tools – Selenium, Appium, Postman, JMeter, Cypress, Playwright

Programming Languages – Python, Java

API Testing – RESTful APIs, HTTP Protocols

Web UI Testing – Dynamic Elements, Asynchronous Loading

Frameworks & CI/CD – TestNG, pytest, Jenkins

Version Control – Git, SVN

Defect Management – Jira

PROJECTS

API Automation Framework for Enterprise Services

- Engineered a reusable **Python** test automation framework for validating **RESTful APIs** across multiple internal enterprise services, integrating with **Postman** collections.
- Implemented comprehensive test suites covering functional, performance, and security aspects of backend services, achieving **over 95% API endpoint coverage**.
- Integrated the framework into the team's **Jenkins CI/CD pipeline**, automating API regression testing for each code commit and reducing manual testing time by approximately **50%**.

Web UI Test Automation Suite for Financial Dashboard

- Developed end-to-end **Web UI automation** scripts using **Playwright** to test critical user flows on a complex financial operations dashboard, focusing on **handling dynamic elements** and asynchronous page loads.
- Configured tests to run within a **Dockerized environment**, ensuring consistent execution and facilitating collaboration with development teams during bug triage.
- Managed test script maintenance and optimization, improving suite execution speed by **20%** and reducing false positive defects reported by **~30%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
