

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • Stamp 1G — Full-Time Work Eligible

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** REST APIs for enterprise systems, handling over 500 requests per minute and ensuring seamless data exchange.
- Managed production support for critical enterprise applications using **Splunk** and **Dynatrace**, responding to P1/P2 incidents within defined SLA targets.
- Automated data processing and reporting tasks using **Python** scripting, reducing manual effort by an estimated 20% for the operations team.
- Collaborated with cross-functional teams to gather requirements and coordinate User Acceptance Testing (UAT) for system configuration updates.
- Performed ad-hoc data analysis and validation using **SQL** across PostgreSQL and Oracle databases, supporting business intelligence initiatives.
- Containerized multiple Java applications using **Docker**, enabling more consistent deployment across development and production environments.
- Implemented robust error handling and retry mechanisms within **Java** services, improving overall application stability and reducing failure rates by approximately 15%.

SKILLS

Backend Development – Java, Spring Boot, REST APIs, Hibernate, JPA, Microservices, JUnit, Maven, Gradle

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, R, RStudio, pandas, NumPy, scikit-learn, Data Warehousing, Statistical Analysis

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux, Shell Scripting

Databases – SQL, PostgreSQL, MySQL, Oracle

Operations & Support – Splunk, Dynatrace, Jira, Confluence, Change Management, Incident Response, SLA Management

PROJECTS

Financial Operations Dashboard Enhancement (HCL Technologies)

- Enhanced a **payments operations dashboard** for a financial services client by building new Java Spring Boot services to process and display real-time transaction data.
- Integrated new data sources via **REST APIs** and SQL queries, improving the visibility of reconciliation workflows and reducing manual data reconciliation efforts by approximately 10 hours per week.
- Developed automated alerts and reporting for failed payment messages using **Python**, directly supporting operational teams in maintaining service level agreements.

Enterprise System Integration Automation (HCL Technologies)

- Automated cross-system data flows between ERP modules and operational platforms using **Python** scripts and direct **SQL** database integrations.
- Implemented a change-control framework for system configurations, coordinating UAT and post-go-live support across interconnected enterprise systems.
- Designed and deployed **REST APIs** for inter-service communication, facilitating smoother data exchange and reducing integration latency by an average of 20%.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
