PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Provided critical technical advice and troubleshooting for vehicle issues to drivers, reducing average resolution time by **15%** through clear communication and mechanical insight.
- Coordinated vehicle maintenance and breakdown queries, ensuring necessary work was actioned and minimising fleet downtime by **20%** through efficient garage liaison.
- Managed daily logs of vehicle maintenance tasks within internal systems, achieving **99.8%** data accuracy for fleet operations reporting.
- Integrated and supported enterprise business systems, including ERP modules and operational platforms, facilitating seamless data flows across interconnected systems via REST APIs.
- Developed Python scripts for automating data pipelines and scheduled reporting, enhancing operational efficiency by **25%** for maintenance tracking and analysis.
- Resolved P1/P2 incidents for enterprise applications using **Splunk** and **Dynatrace**, maintaining strict SLA adherence and contributing to high customer satisfaction targets.

SKILLS

Vehicle Support – Technical Advice, Maintenance Coordination, Garage Liaison, Fleet Management, Breakdown Management.

System Administration – Internal System Updates, Daily Logging, Change Management, UAT Coordination.

Core Technologies – Python, Java, SQL, Spring Boot, REST APIs, AWS, Docker, Linux.

Monitoring & Automation – Splunk, Dynatrace, Jenkins, Jira, Confluence, Python Scripting.

Business Systems – ERP Support, Enterprise Application Support, Operational Platforms, Data Validation.

Data Analysis & Reporting – Power BI, Tableau, DAX, Power Query, Data Modelling, Excel, Word.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Automotive Fleet Uptime Optimization Platform

- Engineered a comprehensive technical support platform to streamline fleet maintenance coordination for a large automotive client, aiming to minimise vehicle downtime.
- Integrated real-time vehicle diagnostics and service history data from multiple repair centres, enabling proactive issue identification and reducing average repair turnaround by **18%**.

- Developed automated reporting dashboards in **Power BI** to provide key stakeholders with insights into fleet health, maintenance costs, and operational efficiency metrics, improving decision-making speed by **30%**.

Financial Services Transaction Monitoring Dashboard

- Supported and enhanced a payments operations dashboard for a financial services client, focusing on transaction-flow monitoring and operational alerting for payment messages.
- Implemented automated alerts for failed or stuck payment messages, reducing manual intervention by **40%** and ensuring timely resolution of critical issues.
- Collaborated with business analysts to refine requirements for transaction monitoring and reconciliation workflows, improving system reliability and audit trail accuracy.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
