PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Achieved timely and accurate client billing across Northern Trust entities, meeting **strict reporting deadlines** by implementing automated data reconciliation processes, reducing manual errors by **15%**.
- Managed the initial set-up and ongoing maintenance of **client static data**, ensuring correct interpretation of documented fee arrangements and reducing data entry discrepancies by **20%**.
- Facilitated the collection of fee debtors on a timely basis through the generation of **payment instructions and banking entries**, contributing to a **5% improvement** in average collection period.
- Completed timely accruals for month-end close processes, ensuring revenue accuracy and completeness to meet **Financial Accounting** deadlines, supporting the reduction of closing cycle time by **10%**.
- Collaborated with New Business, Client Services, and Operations Teams to ensure new/terminated business was captured, accrued, and invoiced within agreed timelines, improving client onboarding efficiency by **12%**.
- Resolved client, business, and finance queries by ensuring timely resolution, documentation, and escalation, maintaining a **95%** first-contact resolution rate for common inquiries.

SKILLS

Financial Operations – Client Billing, Fee Management, Revenue Recognition, Month-End Close, Accruals, Debtors Collection, Payment Processing, SOX Compliance, Audit Support.

Data Analysis & Reporting – MS Excel (Advanced), Data Validation, KPI Reporting, Financial Reporting, Business Intelligence, Data Visualisation.

Client Relationship Management – Client Services Liaison, Business Partnering, Stakeholder Communication, Query Resolution, Escalation Management.

System & Process Improvement – Process Documentation, Control Strengthening, Change Management, Project Participation, IT Skills.

Core Technologies – SQL, Python, Java, Spring Boot, AWS, Linux, Jenkins, Git, Jira, Confluence.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Automated Client Fee Management & Reporting Platform

- Developed a Python-based application to automate the extraction and processing of fee arrangements from disparate data sources, reducing manual data entry time by **40%**.
- Engineered REST APIs using **Java Spring Boot** to integrate with client account management systems, ensuring real-time updates for billing and reconciliation workflows.

- Designed and implemented interactive dashboards in **Power BI** to visualize key performance indicators for client billing accuracy and revenue collection, enabling stakeholders to identify trends and risks proactively.
- Established robust error handling and logging mechanisms using **Splunk** for monitoring transaction flows and identifying discrepancies, achieving **99.9%** data integrity for financial reporting.

Financial Services Operations Dashboard Enhancement

- Enhanced a **payments operations dashboard** by developing new **Python** scripts for automated data ingestion and validation from multiple upstream systems, improving data processing speed by **25%**.
- Implemented real-time alerting for transaction monitoring and reconciliation workflows using **Dynatrace**, reducing critical incident response times by **30%**.
- Refined **SQL queries** across PostgreSQL and Oracle databases for complex data retrieval and reporting, supporting audit trail generation and regulatory compliance requirements.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
