PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Developed scalable Python applications and **REST APIs** for a global industrial technology company, contributing to the development of advanced platforms for building management solutions, achieving a **15% reduction** in API response times.
- Designed and implemented AI features into software systems using **Python (FastAPI, Pydantic)** and **PyTest** with TDD/BDD practices, enhancing data intelligence for automation initiatives and improving data processing accuracy by **20%**.
- Supported the deployment and operation of containerized solutions on **AWS** using cloud-native principles and **Docker**, ensuring **99.95%** uptime for critical business applications.
- Contributed to the implementation and maintenance of **CI/CD pipelines** using **GitHub Actions**, automating build, test, and deployment processes and reducing deployment cycle time by **30%**.
- Collaborated within Agile Scrum teams, participating in code reviews and technical discussions to ensure software quality and continuous improvement, leading to a **10%** decrease in production defects.
- Ensured security best practices through implementation of **AuthN/AuthZ (OpenID/OAuth2)** and container vulnerability scanning, strengthening the security posture of digital ecosystem applications.

SKILLS

Programming Languages – Python, Java, Golang, Rust, SQL.

Web Frameworks & APIs – FastAPI, Flask, Spring Boot, REST APIs, Pydantic.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, GitHub Actions, ArgoCD, Jenkins, Azure.

Databases – PostgreSQL, MySQL, Oracle, NoSQL.

AI & ML – Machine Learning Fundamentals, Data Intelligence, LangChain, Hugging Face, OpenAI API.

Methodologies & Tools – Agile, Scrum, Kanban, Git, Jira, Confluence, PyTest, TDD, BDD, Postman.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

AI-Powered Industrial IoT Analytics Platform (Acuity Inc.)

- Architected and developed a scalable cloud-native platform using **Python (FastAPI, Async programming)** and **PostgreSQL** to ingest and analyze data from industrial IoT devices, enabling real-time operational intelligence.

- Integrated AI/ML models (e.g., predictive maintenance, anomaly detection) via **Hugging Face** and **OpenAI API**, improving equipment uptime by **18%** and reducing unplanned downtime by **25%**.
- Implemented robust **CI/CD pipelines** with **GitHub Actions** and containerized deployments using **Docker** on **AWS**, ensuring rapid iteration and reliable delivery of new features and AI capabilities.

Financial Transaction Monitoring Dashboard (HCL Technologies)

- Developed and maintained a **payments operations dashboard** supporting a financial-services client, focusing on **transaction monitoring** and operational alerting for failed payment messages using **Java Spring Boot** and **PostgreSQL**.
- Enhanced **reconciliation workflows** and audit trail capabilities, ensuring compliance with regulatory requirements and GDPR awareness, and improving data accuracy by **99.9%**.
- Automated data validation and reporting processes using **Python scripting**, reducing manual effort by **40%** and improving the speed of issue identification for critical financial transactions.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
