

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and developed REST APIs using **Java Spring Boot**, integrating with **PostgreSQL** databases to support new feature development, completing **15+ user stories** within a 3-month sprint cycle.
- Automated critical data validation processes with **Python scripting**, reducing manual verification time by **40%** and improving data accuracy for financial operations reporting.
- Managed production incidents for a financial-services dashboard, performing root cause analysis using **Splunk** and **Dynatrace**, and resolving P1/P2 issues within **99.9% SLA compliance**.
- Contributed to the development of cloud-based lighting and sensing systems by assisting in the design and testing of software features connecting **cloud, mobile, and IoT components**, adhering to Agile methodologies.
- Enhanced system reliability by implementing monitoring and alerting for transaction flows on a payments operations dashboard, ensuring **99.95% uptime** for critical financial services.
- Refactored SQL queries and implemented schema changes in **PostgreSQL** and **MySQL** databases to support enterprise business system integrations, improving data retrieval performance by an average of **15%**.

SKILLS

Programming Languages – Java, Python, JavaScript, SQL, C#

Frameworks & Libraries – Spring Boot, React, Node.js, pandas, NumPy, scikit-learn

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux

Databases – PostgreSQL, MySQL, Oracle, Relational Databases

Tools & Platforms – Power BI, Tableau, Splunk, Dynatrace, Jira, Confluence

Methodologies – Agile, Scrum, Test-Driven Development (TDD), CI/CD

Domain Knowledge – IoT, Cloud-based Systems, Lighting Controls, Building Management Solutions, Payments Operations, Transaction Monitoring, ERP Integration

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

IoT Device Fleet Management Platform (HCL Technologies)

- Engineered a centralized management platform for a fleet of **5,000+ IoT devices**, facilitating remote configuration updates and real-time status monitoring using **Python** and a **FastAPI** backend.
- Developed a secure device authentication and authorization service using **OAuth 2.0 principles**, integrated with a **PostgreSQL** database to manage device credentials and access policies, reducing unauthorized access

attempts by **90%**.

- Implemented a data ingestion pipeline using **AWS Lambda** and **SQS** to process telemetry data from IoT devices, achieving a throughput of **1 million messages per day** and enabling near real-time performance analytics.

Financial Transactions Monitoring Dashboard (HCL Technologies)

- Built and maintained a **Power BI dashboard** for a financial services client, visualizing transaction flows, identifying bottlenecks, and providing operational alerts for failed payment messages, improving detection time by **30%**.
- Automated data extraction and transformation from multiple relational databases (**PostgreSQL, Oracle**) using **Python scripts** and **Power Query** to populate the data model for the monitoring dashboard.
- Collaborated with business analysts to gather requirements and refine dashboard metrics, ensuring alignment with operational needs and regulatory awareness for transaction monitoring.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
