PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Validated pricing structures and discount application for over **1,500 non-standard rebate requests**, ensuring **99.8% accuracy** and compliance with internal pricing policies.
- Supported complex quoting and MeetComp requests by partnering with Sales & Distribution, achieving a **15% reduction** in average request resolution time through proactive data validation.
- Participated in process standardization initiatives for the Quoting & Rebating Operations (QRO) team, contributing to the adoption of new workflows that improved operational efficiency by **10%**.
- Collaborated with Sales, Deal Desk, and Business Operations teams to balance commercial needs with governance and compliance, successfully managing over **200 complex pricing scenarios** per quarter.
- Provided practical feedback from day-to-day operations on pricing and rebating processes, informing continuous improvement efforts and the integration of new AI tools.
- Developed Python scripts to automate the validation of pricing data against established rebate logic, reducing manual review effort by **30%** and minimizing compliance risks.

SKILLS

Pricing & Rebating – Quoting, Rebate Programs, Discount Structures, MeetComp Requests, Pricing Policies, Sales Support

Operations & Process Improvement – Process Standardization, Continuous Improvement, Workflow Adoption, Governance, Compliance, Operational Integrity

Data Analysis & Validation – Data Validation, Pricing Structures, Rebate Logic, SQL Queries, Data Accuracy

Collaboration & Communication – Cross-Functional Partnership, Stakeholder Communication, Sales Operations, Business Operations, Deal Desk

Automation & Scripting – Python Scripting, ETL, Data Pipelines, Scheduled Reporting

Enterprise Systems – CRM Systems, Pricing Systems, ERP Integration Support, Change Management

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Automated Pricing & Rebate Compliance System (HCL Technologies)

- Developed a Python-based application to automate the validation of complex pricing and rebate agreements for a financial services client, processing over **5,000 transactions weekly**.
- Integrated the system with client databases using SQL (PostgreSQL, Oracle) to verify discount application and rebate logic against contractual terms, achieving **99.9% data accuracy**.

- Implemented automated reporting features to flag discrepancies and compliance risks, reducing manual oversight by **40%** and supporting audit trail requirements.

AI-Assisted Quoting Tool Enhancement (Personal Project)

- Designed and prototyped an AI-assisted quoting tool using Python and machine learning fundamentals to predict optimal pricing for non-standard requests, analyzing historical sales data.
- Developed data models and implemented feature engineering techniques to improve the accuracy of pricing suggestions, aiming to reduce quote generation time by **25%**.
- Created interactive dashboards in Power BI to visualize pricing trends and AI model performance, enabling stakeholders to make informed decisions and providing practical feedback for iterative improvements.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
