PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Developed **Java Spring Boot** applications and **REST APIs**, delivering **15+ new features** and resolving critical bugs to enhance product functionality for enterprise clients.
- Automated data processing and reporting tasks using **Python scripting**, reducing manual effort by **40%** and improving data accuracy for financial operations dashboards.
- Managed production support for enterprise applications across **Linux** and **AWS** environments, resolving **95%** of P1/P2 incidents within SLA targets and ensuring **99.9%** uptime.
- Executed complex **SQL queries** across **PostgreSQL** and **Oracle** databases for data validation, schema migrations, and ad-hoc reporting, supporting critical business intelligence needs.
- Contributed to agile scrum teams by analyzing requirements, developing, testing, and documenting high-quality software solutions, consistently meeting sprint milestones and definition of done criteria.
- Enhanced overall product performance and usability by conducting code reviews, performing component and visual testing, and collaborating with technical support to resolve customer-reported issues.

SKILLS

Backend Development – Java, Spring Boot, Hibernate, REST APIs, Python, Flask, FastAPI

Databases – SQL, PostgreSQL, MySQL, Oracle, SQL Server

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux

Frontend Technologies – HTML, JavaScript, CSS, XML, AJAX, React, Angular

Methodologies – Agile, Scrum, CI/CD, Object-Oriented Engineering, Test-Driven Development

Business Systems – ERP Integration Support, Payments Operations Dashboards, Transaction Monitoring, Reconciliation Workflows

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Enterprise Learning Management System Enhancement (HCL Technologies)

- Designed and implemented new **Java Spring Boot** modules for the TopClass LMS platform, integrating **REST APIs** to support enhanced user management and course delivery functionalities.
- Developed automated testing suites using **JUnit** and **Mockito**, achieving **85%** code coverage for new features and reducing post-deployment defects by **20%**.

- Collaborated with Product Owners and scrum teams to refine user stories, conduct code reviews, and ensure adherence to established development standards, successfully delivering project milestones within sprint timelines.

Financial Transaction Monitoring & Alerting System

- Engineered a **Java**-based backend service to process and monitor high-volume financial transaction messages, identifying and alerting on failed or stalled transactions with **99.5%** accuracy.
- Developed automated data pipelines using **Python** and **SQL** to ingest and validate transaction data from diverse sources into a central repository, supporting reconciliation workflows.
- Implemented comprehensive logging and monitoring using **Splunk** and **Dynatrace**, ensuring audit trail integrity and providing real-time operational insights for a critical financial services dashboard.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
