PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Delivered electrical design solutions across feasibility, concept, and detailed design phases for data centre projects, ensuring adherence to client specifications and AECOM quality procedures.
- Defined and validated power architectures, including utility intake, MV/LV distribution, UPS topologies, and generator integration, achieving **99.9% availability** through resilient system design.
- Led power systems studies and protection design, performing load flow, short circuit, and protection coordination analysis using **ETAP** to optimize system performance and safety.
- Integrated monitoring and controls systems (BMS/EPMS/SCADA) and metering strategies, aligning with Tier III availability objectives and enhancing operational oversight.
- Embedded decarbonization and energy efficiency initiatives, incorporating high-efficiency UPS and advanced controls to reduce energy consumption by **15%** across project lifecycles.
- Coordinated multi-disciplinary interfaces, including mechanical, structural, and ICT systems, to ensure the delivery of fully integrated and compliant data centre designs.

SKILLS

Electrical Design – Power Architectures, MV/LV Distribution, UPS Topologies, Generators, Switchgear, PDUs, STS, Busway, Earthing, Lighting

Power Systems Analysis – Load Flow, Short Circuit Analysis, Protection Coordination, Arc-Flash Studies, Harmonic Analysis, ETAP, SKM

Data Centre Infrastructure – Hyperscale, Mission Critical Environments, Utility Intake, Resilience Features, Tier II-IV Standards

Project Management & Delivery – Feasibility, Concept Design, Detailed Design, Procurement Support, Construction, Commissioning, Handover, Commercial Acumen, Financial Management

Compliance & Standards – IEC, BS, EN, NEC, NFPA, Client Specifications, AECOM Quality Procedures, GDPR Awareness

Integration & Controls – BMS, EPMS, SCADA, Metering Strategies, Decarbonization, Energy Efficiency, Heat Recovery, Demand Response

Software & Tools – ETAP, SKM, AutoCAD, Revit, Jira, Confluence, MS Project, Python (Scripting)

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

AECOM EMEA Data Centre Electrical Resilience Program

- Engineered comprehensive electrical resilience strategies for a portfolio of **hyperscale data centres** across EMEA, focusing on Tier III+ availability objectives.
- Developed and validated advanced power architectures, integrating **utility intake, MV/LV distribution, and UPS/generator systems**, reducing single points of failure by **40%**.
- Executed detailed power systems studies using **ETAP**, including load flow, protection coordination, and arc-flash analysis, ensuring system safety and optimizing operational efficiency by **18%**.

HCL Financial Services Transaction Monitoring Dashboard

- Enhanced a **payments operations dashboard** for a financial-services client, improving transaction monitoring and operational alerting for failed payment messages.
- Implemented Python scripts to automate data ingestion and validation for reconciliation workflows, decreasing manual processing time by **30%**.
- Supported production environments with strict SLAs, contributing to audit trail integrity and GDPR-aware operational practices.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
