PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Prepared, documented, and presented validation reports for **financial risk models**, including derivative valuation and risk measurement models, to senior management, achieving **95% stakeholder approval** on model findings.
- Collaborated with model developers and business stakeholders to track and ensure completion of **model validation actions**, reducing outstanding remediation items by **30%** within one quarter.
- Provided quantitative support for the wider Financial Risk team by developing **Python scripts** for data analysis and scenario generation, accelerating risk assessment timelines by **15%**.
- Developed and maintained **Java Spring Boot REST APIs** for financial data ingestion and processing, ensuring seamless integration with downstream risk reporting systems and handling over **10,000 transactions daily**.
- Automated data extraction and transformation processes using **Python and SQL** for a financial-services operations dashboard, improving data accuracy for transaction monitoring and reconciliation workflows by **20%**.
- Managed change-control processes for enterprise business systems, coordinating User Acceptance Testing (UAT) and providing post-go-live support for system configuration updates, contributing to a **99.9% system uptime**.

SKILLS

Financial Risk – Model Validation, Derivative Pricing Models, Risk Measurement Models, Behavioural Models, VaR, xVA Models, Risk Analysis, Risk Modelling, Scenario Analysis.

Programming & Scripting – Python, R, Java, Spring Boot, SQL, Bash.

Data Analysis & BI – Power BI, DAX, Tableau, pandas, NumPy, RStudio, Data Warehousing, ETL.

Financial Technologies – Calypso (Familiarity), FINCAD (Familiarity), QRM (Familiarity), Payments Operations Dashboard, Transaction Monitoring, Reconciliation Workflows.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux.

Enterprise Systems – ERP Integration Support, REST APIs, Change Management, Jira, Confluence.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Financial Risk Model Validation Platform (HCL Technologies)

- Developed a comprehensive **Python-based framework** for validating financial risk models, integrating libraries for statistical analysis and data manipulation to simulate model behavior under various market

conditions.

- Implemented automated reporting tools using **pandas and R** that generated detailed validation reports, including backtesting results and sensitivity analysis, for derivative pricing and risk measurement models, reducing report generation time by **40%**.
- Designed and executed test cases against **Calypso and FINCAD** data models to assess the accuracy and robustness of integrated risk measurement systems, identifying and documenting **5 critical discrepancies** in model outputs.
- Collaborated with cross-functional teams to integrate the validation platform with existing **AWS infrastructure**, ensuring secure data handling and efficient processing of large financial datasets.

Payments Operations Dashboard Enhancement (HCL Technologies)

- Enhanced a **payments operations dashboard** by developing new Java Spring Boot services to monitor transaction flows and identify failed payment messages in real-time, improving alert accuracy by **25%**.
- Automated data reconciliation workflows using **SQL and Python scripting**, reducing manual effort by 10 hours per week and ensuring data integrity for critical financial operations.
- Implemented enhanced audit trail logging and GDPR-aware data handling procedures for the dashboard, meeting strict **regulatory awareness** requirements for financial services.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
