PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Executed manual test cases for web and mobile applications, identifying and documenting bugs with **95% accuracy**, contributing to a **15% reduction** in critical defects before release.
- Performed smoke testing and regression testing on new releases and feature updates, validating core functionality and ensuring **zero critical regressions** across **50+ test cycles**.
- Supported bug triage processes by collaborating with product teams and developers, providing clear, actionable feedback that accelerated defect resolution by **20%**.
- Managed and tracked test cases using **TestRail**, ensuring comprehensive test coverage and adherence to quality standards for a high-volume user base.
- Validated application functionality across **10+ different browser and mobile device configurations**, ensuring a consistent user experience.
- Assisted in improving QA processes and documentation standards by contributing to the development of standardized test reporting templates and bug documentation guidelines.

SKILLS

Testing Methodologies – Smoke Testing, Regression Testing, Manual Testing, Structured Bug Reporting

Test Management Tools – TestRail, Zephyr, Xray

Project Management Tools – Jira, Asana

Web & Mobile Testing – Cross-Browser Testing, Cross-Device Testing, Browser Developer Tools

Development Support – Bug Triage, Defect Documentation, Feature Validation

Data & Systems – SQL, Python, Java, REST APIs, JSON

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Air Apps Mobile & Web Application Quality Assurance

- Executed comprehensive manual test cases across iOS and Android platforms and multiple web browsers, identifying and documenting over **500 bugs** in the PRP application, leading to a **25% decrease** in post-release critical issues.
- Performed rigorous smoke and regression testing for **12 major feature releases** and **50+ minor updates**, ensuring the stability and reliability of the AI-powered Personal Resource Planner.

- Collaborated closely with product managers and developers in daily bug triage meetings, providing detailed reports and reproduction steps that expedited the resolution of high-priority defects by **30%**.
- Managed test case execution and reporting within **Jira and TestRail**, maintaining detailed documentation for all test cycles and ensuring adherence to release checklists for **100+ features**.
- Utilized basic browser developer tools to inspect elements and monitor network requests, aiding in the efficient troubleshooting of front-end issues across various user interfaces.

HCL Technologies Payments Operations Dashboard Enhancement

- Contributed to the production support and feature enhancement of a financial-services client's payments operations dashboard, focusing on transaction monitoring and operational alerting for failed payment messages.
- Developed and executed SQL queries across PostgreSQL and Oracle databases for data validation and to support incident investigation, ensuring data integrity for reconciliation workflows.
- Automated reporting tasks using Python scripts, reducing manual effort by **40%** and improving the timeliness of operational summaries for financial transactions.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
