

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Architected and developed **highly available, fault-tolerant systems** for the AWS Lambda control plane, supporting trillions of monthly invocations by ensuring **99.99% uptime** through proactive monitoring and incident response.
- Designed and implemented **scalable distributed systems** for AWS Lambda's runtime infrastructure, optimizing latency by **15%** through performance tuning and efficient resource allocation.
- Authored clean, maintainable code for critical AWS Lambda components, achieving **95% code coverage** via comprehensive unit, integration, and end-to-end testing frameworks.
- Collaborated with global engineering teams to integrate new features into the AWS Lambda service, contributing to the release of **3 major updates** within a 12-month period.
- Optimized system performance and cost efficiency for AWS Lambda control plane operations, reducing cloud resource expenditure by **10%** through strategic resource management and automation.
- Participated in on-call rotations, resolving an average of **5 critical incidents** per quarter within defined SLA targets to ensure service reliability for millions of customers.

SKILLS

Cloud Platform – AWS Lambda, AWS EC2, AWS S3, AWS Lambda Control Plane, AWS Runtimes

Programming Languages – Java, Python, SQL, R, TypeScript

Backend Frameworks & Technologies – Spring Boot, Node.js, NestJS, REST APIs, Docker

Databases – PostgreSQL, MySQL, Oracle

Observability & Monitoring – Splunk, CloudWatch, Dynatrace

CI/CD & DevOps – Jenkins, Git, Linux Shell Scripting

Data Analytics & BI – Power BI, DAX, Tableau, pandas, NumPy, scikit-learn

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

AWS Lambda Global Control Plane Orchestrator

- Developed a **distributed control plane orchestrator** for AWS Lambda, managing provisioning and configuration for millions of serverless functions worldwide.
- Engineered **highly available and fault-tolerant microservices** using Java Spring Boot and PostgreSQL, achieving **99.999% availability** and processing over 10 trillion invocations monthly.

- Implemented **comprehensive monitoring and alerting** using AWS CloudWatch and Splunk, reducing mean time to detection (MTTD) for critical issues by **40%**.

HCL Financial Services Operations Dashboard Enhancement

- Enhanced a **payments operations dashboard** for a financial services client by developing Python scripts for automated transaction monitoring and anomaly detection.
- Integrated new data sources via REST APIs and SQL queries across PostgreSQL and Oracle databases, improving visibility into **reconciliation workflows** and reducing manual data reconciliation efforts by **25%**.
- Supported production environments with strict SLAs, contributing to **audit trail generation** and ensuring GDPR-aware data handling practices.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
