PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Automated the deployment and scaling of AWS services like **EC2** and **S3** for the European Sovereign Cloud (ESC), reducing manual intervention by **40%**.
- Managed production support for a financial-services operations dashboard, resolving P1/P2 incidents and ensuring **99.9% uptime** through proactive monitoring with **Splunk** and **Dynatrace**.
- Developed Python scripts to automate data ingestion and transformation for operational reporting, improving data pipeline efficiency by **30%**.
- Implemented and maintained **Jenkins** CI/CD pipelines for Java Spring Boot applications, accelerating deployment cycles and reducing build failures by **25%**.
- Supported enterprise business systems by managing change-control processes for system configurations and coordinating UAT, ensuring seamless integration across **PostgreSQL** and **Oracle** databases.
- Designed and deployed interactive dashboards and data visualisations using **Power BI** and **DAX** for MSc Data Analytics coursework, translating complex datasets into actionable business insights for stakeholders.

SKILLS

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch), Docker

Programming & Scripting – Java, Python, Spring Boot, SQL

Operations & Monitoring – Splunk, Dynatrace, Jenkins, Linux, Shell Scripting, Incident Response

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, R, pandas, NumPy, scikit-learn

Systems & Integrations – REST APIs, PostgreSQL, MySQL, Oracle, ERP Support, Change Management

Methodologies – Agile, Scrum, CI/CD, Data Warehousing, ETL

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

AWS European Sovereign Cloud (ESC) Managed Operations Platform

- Architected and deployed a scalable, high-availability platform for the **AWS European Sovereign Cloud (ESC)**, focusing on EC2 and S3 service operations.
- Developed automated remediation scripts using **Python** and **Bash** integrated with **AWS CloudWatch** alarms to resolve common operational issues, reducing incident resolution time by an average of **35%**.
- Implemented comprehensive monitoring and alerting strategies using **Splunk** and custom AWS solutions to ensure continuous operational health and performance for EU customers, meeting stringent SLA targets.

- Managed change control processes for operational updates and feature enhancements within the ESC environment, coordinating UAT with global AWS teams and ensuring adherence to GDPR-aware production standards.

Financial Services Transaction Monitoring Dashboard (HCL Technologies)

- Enhanced a payments operations dashboard for a financial-services client, focusing on transaction monitoring and operational alerting for failed payment messages.
- Developed **Java Spring Boot** microservices to process and validate inbound transaction data, improving data accuracy by **15%**.
- Authored **SQL** queries across **PostgreSQL** and **MySQL** for data validation and reconciliation workflows, supporting audit trail requirements and regulatory compliance.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
