

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Developed and maintained **SwiftUI applications** for device management, contributing to enhanced user experience and operational efficiency across **macOS, iOS, and iPadOS** platforms, resulting in a **15% reduction** in device provisioning time.
- Collaborated with senior engineers to integrate **AI tools** for automating software distribution workflows, achieving a **20% increase** in deployment speed for critical business applications.
- Designed and implemented **REST APIs** for seamless integration between Device Management (MDM) and Asset Management (ITAM) systems, improving data synchronization accuracy by **99.8%**.
- Troubleshoot and resolved complex software issues on **Apple platforms**, performing in-depth log analysis and debugging to maintain high system availability and minimize downtime for **5,000+ devices**.
- Participated in rigorous **code reviews**, applying **Apple's development practices** and object-oriented design principles to ensure code quality and maintainability of core system components.
- Scripted automated data validation processes using **Python**, processing over **1 million records daily** to ensure data integrity for asset tracking and software inventory management.

SKILLS

Languages – Swift, Python, Java, SQL

Apple Platforms – SwiftUI, macOS, iOS, iPadOS, tvOS, visionOS

Development Tools – Xcode, Git, Jenkins, Docker

APIs & Integrations – REST APIs, MDM, ITAM

AI & Machine Learning – Generative AI Tools, AI Concepts, Data Analysis

Cloud & Scripting – AWS (EC2, S3, Lambda), Linux Shell Scripting

Methodologies – Agile/Scrum, Object-Oriented Design, Code Reviews

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Global Device Management and Software Distribution Platform (HCL Technologies)

- Engineered a scalable backend service using **Java Spring Boot** and **PostgreSQL** to manage device configurations and software deployments for a financial services client, supporting over **25,000 endpoints**.
- Developed automated reconciliation workflows with **Python** and SQL, cross-validating asset inventory against deployment status, reducing manual verification effort by **40%** and improving audit trail accuracy.

- Implemented robust monitoring and alerting using **Splunk** and **Dynatrace**, ensuring **99.95% uptime** for critical device management operations and enabling proactive incident response for P1/P2 issues.

AI-Enhanced Developer Productivity Suite

- Developed a proof-of-concept application using **Swift** and **SwiftUI** that integrates **generative AI tools** to assist developers with code generation and debugging, targeting a **30% reduction** in common bug resolution times.
- Designed and implemented RESTful APIs for seamless interaction with AI models and internal systems, processing an average of **500 requests per minute** during peak usage.
- Utilized **Python scripting** to automate the ingestion and pre-processing of large code repositories for AI model training, improving data pipeline efficiency by **25%**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
