PROJECTS

Apple TV Studio & Production Services Orchestration Platform (HCL Technologies)

- Designed and implemented a **full-stack web application** using **Java Spring Boot** for the backend and **Vue.js** for the frontend, to manage production workflows for Apple TV Studio.

- Developed **microservices and RESTful APIs** to integrate with existing content management and asset tracking systems, processing over **10,000 production requests** daily with **99.95% availability**.
- Deployed the application on **AWS** utilizing **Docker** for containerization and integrated with **Jenkins** for automated CI/CD pipelines, reducing deployment times by **40%** and enabling faster feature delivery.

Financial Transaction Monitoring Dashboard (HCL Technologies)

- Developed and supported a **payments operations dashboard** for a financial-services client, enabling real-time **transaction monitoring** and operational alerting for failed payment messages.
- Automated data extraction and aggregation using **Python and SQL**, supporting reconciliation workflows and providing audit trails for regulatory compliance, reducing manual reconciliation effort by **35%**.
- Managed application stability in a production environment with strict SLAs, responding to P1/P2 incidents and collaborating with cross-functional teams to resolve issues, maintaining system uptime above **99.9%**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
