PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and deployed **production ML/GenAI systems**, achieving a **15% improvement** in enterprise data processing efficiency by integrating LLM-based solutions with the data platform infrastructure.
- Built automated **ML pipelines** for data preparation, model training, and evaluation, reducing manual intervention by **40%** and enabling faster iteration cycles for generative AI solutions.
- Developed and integrated **LLM-based solutions**, including Retrieval-Augmented Generation (RAG) and agentic frameworks, to address enterprise use cases and enhance data analysis capabilities, resulting in a **20% increase** in insight generation speed.
- Managed the full ML lifecycle, from data wrangling and experimentation to model development and production deployment, ensuring **solid production code** quality and pipeline stability for critical AI initiatives.
- Collaborated with cross-functional teams and business stakeholders to define requirements and deliver AI and ML systems, translating complex business problems into actionable technical solutions that improved operational workflows by **18%**.
- Supported enterprise data warehouse operations, processing billions of rows daily and ensuring data integrity for insights and informed business decisions, maintaining **99.9% uptime** for critical data services.

SKILLS

Core ML/GenAI – Machine Learning, Generative AI, LLMs, RAG, Prompt Engineering, Agentic Frameworks (LangChain, LangGraph), Anomaly Detection, Forecasting, Python, Pandas, NumPy, Scikit-learn.

Data Engineering & Platforms – Enterprise Data Warehouse, Large-Scale Data Processing, Distributed Data Systems, SQL, PostgreSQL, MySQL, Oracle, Data Modeling, ETL, Data Warehousing, AWS (EC2, S3, Lambda, CloudWatch), Docker.

MLOps & Deployment – ML Pipelines, CI/CD (Jenkins), Production Deployment, Model Monitoring, A/B Testing, Time-Series Analysis.

Programming Languages – Python, Java, Spring Boot, SQL, R.

BI & Visualization – Power BI, Tableau, DAX, Power Query, Data Visualization.

Enterprise Systems & Operations – ERP Support, Change Management, Production Support, Incident Response, SLA Management, GDPR Awareness, Linux.

Development Tools – Git, Jira, Confluence.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Generative AI Platform for Data Insights (HCL Technologies)

- Architected and deployed a **generative AI platform** to ingest and analyze petabytes of enterprise data, enabling rapid generation of business insights and reducing report generation time by **30%**.
- Developed **LLM-based solutions** utilizing RAG and prompt engineering techniques on a **Python** backend, integrated with **PostgreSQL** for knowledge retrieval, and deployed using **Docker** on **AWS EC2**.
- Implemented automated ML pipelines for data preparation, model fine-tuning, and continuous evaluation, ensuring **high accuracy** in predictive analytics and anomaly detection across diverse business datasets.

Payments Operations Dashboard Enhancement (HCL Technologies)

- Enhanced a **payments operations dashboard** by implementing real-time transaction monitoring and operational alerting for failed payment messages, improving issue detection time by **25%**.
- Developed automated **Python** scripts for data validation and reconciliation workflows, ensuring data integrity across financial transaction processing and supporting regulatory awareness requirements.
- Managed production support and incident response for the dashboard, resolving P1/P2 incidents within strict SLAs and collaborating with cross-functional teams for post-implementation triage.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
