+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed and upgraded existing **network infrastructure** to current standards, reducing latency by **15%** across core enterprise systems.
- Resolved infrastructure incidents with urgency based on defined priority, improving mean time to resolution (MTTR) by **20%** through enhanced monitoring.
- Developed and maintained clear **technical and procedural documentation** for network operations, increasing knowledge base accessibility by **30%**.
- Coordinated and troubleshooted network issues effectively with internal teams and external service providers, ensuring **99.95%** uptime for critical business applications.
- Contributed to a **follow-the-sun support model**, successfully managing and resolving over **500** P1/P2 incidents within strict SLAs.
- Implemented network automation scripts using **Python**, streamlining routine maintenance tasks and reducing manual intervention by **40%**.

SKILLS

Networking Fundamentals – IPv4, IPv6, BGP, Layer 2 Technologies, LAN/WAN

Network Hardware & Software – Cisco, Arista, Palo Alto, Fortinet, Juniper

Network Operations – Incident Management, Change Management, SLA Management, 24x7 Support, Documentation

Automation & Scripting – Python, Shell Scripting

Cloud & Infrastructure – AWS (EC2, CloudWatch), Linux

Collaboration & Communication – Cross-functional Teams, External Partners, Technical Documentation

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Global Enterprise Network Monitoring and Automation Platform

- Designed and implemented a centralized monitoring dashboard using **Splunk** and **CloudWatch**, aggregating real-time network telemetry from over **10,000** devices globally to proactively identify performance bottlenecks.
- Developed automated remediation scripts in **Python** for common network issues, such as BGP neighbor flapping and interface errors, reducing manual intervention by **60%** and improving incident response times.

- Integrated network automation workflows with **Jenkins** CI/CD pipelines, enabling seamless deployment of configuration changes and upgrades across Cisco, Arista, and Juniper devices with a **99.9%** success rate.

Payments Operations Dashboard Enhancement

- Enhanced transaction monitoring capabilities for a financial-services client's operations dashboard, improving the detection rate of failed payment messages by **25%**.
- Developed **Java Spring Boot** microservices to process and validate inbound transaction data, ensuring adherence to operational and regulatory awareness standards.
- Collaborated with business analysts to refine alerting mechanisms and reconciliation workflows, contributing to a **10%** reduction in operational overhead.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
