PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and implemented **XCTest**-based automated test suites using **Swift** for all Apple platforms, increasing test coverage by **40%**.
- Integrated LLM-powered test generation systems with existing automation frameworks, enabling intelligent defect analysis and reducing manual test case creation time by **25%**.
- Developed and executed comprehensive automated testing strategies for iOS and macOS applications, achieving a **98%** pass rate for critical user workflows.
- Collaborated with cross-functional teams to define and refine automation testing capabilities, ensuring alignment with product release schedules and quality gates.
- Enhanced CI/CD pipelines to seamlessly integrate automation frameworks, facilitating continuous deployment and providing detailed performance metrics for **over 500 builds** per release cycle.
- Contributed to the development of machine learning models for automated defect triage, improving the accuracy of issue categorization by **15%**.

SKILLS

Programming Languages – Swift, Python, Java, SQL, R

Testing Frameworks – XCTest, Pytest

AI/ML – GenAI, Large Language Models (LLMs), Machine Learning Model Training, Fine-Tuning, Automated Defect Analysis

Platforms – iOS, macOS, Linux, AWS

Tools & Technologies – Docker, Jenkins, Git, Jira, Confluence, PostgreSQL, MySQL, Oracle

Methodologies – Agile/Scrum, Test Strategy Design, Release Engineering, Localization Testing, Internationalization Testing

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

GenAI-Enhanced Test Automation Platform (HCL Technologies)

- Developed a proof-of-concept platform integrating **Large Language Models (LLMs)** with **Swift** test scripts for iOS and macOS applications, generating test cases from user stories and reducing manual effort by **30%**.
- Implemented intelligent defect analysis using LLMs to automatically categorize and prioritize bugs, improving triaging efficiency by **20%** and reducing resolution time for P1/P2 incidents.

- Designed and deployed the automation framework on **AWS EC2** instances, integrated with **Jenkins** for continuous integration and automated reporting of test execution results.

Payments Operations Dashboard Enhancement (HCL Technologies)

- Enhanced a financial-services operations dashboard by developing new transaction monitoring features using **Java Spring Boot** and **PostgreSQL**, improving visibility into payment message flows.
- Automated data validation and reconciliation workflows using **Python** scripts, reducing manual reconciliation errors by **18%** and ensuring data integrity for critical financial operations.
- Managed change requests and deployed updates to production environments under strict SLAs, maintaining **99.9%** uptime for the payments operations dashboard.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
