PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Developed and maintained scalable, distributed data services powering analytics and AI insights, integrating open-source technologies with internal platforms, achieving minimal latency and exceptional reliability.
- Architected and implemented new data system components and features across the full development lifecycle, delivering at a regular cadence with a focus on performance, scalability, and maintainability.
- Partnered with internal customers to understand analytical workflows and data needs, proposing enhancements that streamlined their experience and enabled faster insights.
- Designed and implemented data systems leveraging Generative AI and intelligent automation, ensuring these capabilities were performant, reliable, and scalable.
- Improved data processing efficiency by **30%** through refactoring inefficient relational database queries and implementing strategic indexing on **PostgreSQL** and **Oracle** databases.
- Automated data validation and ETL processes using **Python** scripting, reducing manual effort by **40%** and ensuring data integrity for downstream analytics.

SKILLS

Data Platforms – Distributed Systems, Data Services, High-Throughput Data Platforms, Scalable Data Processing, Data Warehousing, Cloud Databases (Snowflake, BigQuery)

Programming & APIs – Python, Java, Scala, SQL, RESTful API Development, Microservices

AI & Machine Learning – Generative AI, LLMs, Prompt Engineering, Machine Learning Fundamentals, Statistical Analysis, Time-Series Analysis

BI & Analytics – Power BI, Tableau, DAX, Power Query, Data Modelling, Business Intelligence Concepts

Software Engineering – Test-Driven Development (TDD), Agile/Scrum Methodologies, CI/CD, Jenkins, Git, Docker, Linux

Monitoring & Observability – Splunk, CloudWatch, Dynatrace, Incident Response, SLA Management

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Intelligent Data Orchestration Platform (HCL Technologies)

- Architected and built a distributed data orchestration platform to process and analyze 10TB of daily financial transaction data, enabling real-time fraud detection and reconciliation.
- Implemented **Generative AI** capabilities for anomaly detection in transaction flows, improving accuracy by **22%** and reducing false positives by **15%**.

- Developed **RESTful APIs** using **Java Spring Boot** for seamless integration with upstream and downstream financial systems, processing over 1 million transactions per hour.
- Configured and managed CI/CD pipelines using **Jenkins** and **Docker** for automated deployment to **AWS EC2** instances, ensuring 99.95% uptime.
- Optimized **SQL** queries across **PostgreSQL** and **Oracle** databases, reducing data retrieval times for critical reports by 35%.

Executive KPI Dashboard Consolidation (MSc Project)

- Developed an interactive executive KPI dashboard using **Power BI** to consolidate data from 5 disparate business units, providing a unified view of critical business metrics.
- Created complex **DAX** measures and optimized data models for performance, enabling report load times under 3 seconds for over 500 concurrent users.
- Utilized **Power Query** for robust ETL processes, cleaning and transforming raw data from multiple sources, reducing data preparation time by 50%.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
