

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed and maintained **scalable back-end web services** using **Python** and **Flask**, improving system responsiveness by **15%**.
- Enhanced **localization automation tools and workflows** by implementing **new features** in **Java Spring Boot**, reducing manual processing time by **22%**.
- Partnered cross-functionally with **engineering teams** to support new software features, ensuring seamless integration and reducing release cycle time by **10%**.
- Troubleshoot and resolved complex **system and integration issues** across distributed environments, achieving a **99.9%** uptime for critical services.
- Contributed to **architecture decisions** and **long-term technical strategy** for global software delivery platforms, focusing on scalability and reliability.
- Designed and implemented **REST APIs** for inter-service communication, enabling efficient data exchange and supporting **millions of daily transactions**.

SKILLS

Backend Development – Python, Java, Spring Boot, Flask, REST APIs, Microservices, Web Services

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux

Data & Analytics – SQL (PostgreSQL, MySQL, Oracle), Power BI, DAX, Power Query, Tableau, Data Modelling

Automation & Scripting – Python, Shell Scripting, ETL

System Support & Monitoring – Splunk, Dynatrace, Incident Response, Change Management

Internationalisation – Localization Workflows, Translation Systems, Global Markets

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Global Product Localization Pipeline Automation

- Architected and developed a **Python-based pipeline** to automate the localization process for **50+ products**, integrating with translation management systems.
- Implemented **RESTful APIs** for seamless integration with front-end build systems and content delivery networks, reducing localization deployment time by **30%**.

- Designed a **microservices architecture** using **FastAPI** and **PostgreSQL** to manage translation memory and glossaries, improving data consistency across all localized products.

Financial Services Transaction Monitoring Dashboard

- Developed and maintained a **Java Spring Boot application** providing real-time monitoring for payment transaction flows, supporting a financial-services client.
- Integrated **Splunk** for operational alerting on failed or stalled transactions, contributing to a **99.95%** SLA adherence for critical payment operations.
- Automated data validation and reconciliation workflows using **Python scripts** and **SQL** queries against **Oracle databases**, reducing manual error rates by **18%**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
