

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Executed independent installation tasks, including **mechanical assembly**, **electrical connections**, and **robot calibrations**, ensuring successful integration and inspection of semiconductor manufacturing tools, reducing initial setup time by **15%**.
- Developed **Python automation scripts** to streamline data validation and reporting processes for enterprise business systems, decreasing manual processing effort by **40%** and improving data accuracy.
- Managed the full lifecycle of **Java Spring Boot** microservices, implementing new features and resolving bugs in production environments, contributing to a **99.9%** uptime for critical financial services operations dashboards.
- Analyzed and resolved complex **electrical and mechanical issues** during system installations by applying advanced **diagnostic techniques** and collaborating with senior engineers, ensuring adherence to strict security and quality standards.
- Designed and deployed interactive **Power BI dashboards** with complex **DAX measures** and optimized data models, providing actionable insights to business stakeholders and improving decision-making speed by an estimated **20%**.
- Supported and integrated with **ERP modules** and other enterprise business systems, coordinating **change-control management** for system configurations and ensuring seamless post-go-live operations across interconnected platforms.

SKILLS

Core Engineering – Mechanical Assembly, Electrical Connections, Robot Calibration, Troubleshooting, Diagnostic Techniques, Tool Installation, Semiconductor Equipment

Software Development – Java Spring Boot, Python, REST APIs, Microservices, .NET (basic exposure)

Data & Analytics – Power BI, DAX, Tableau, R, RStudio, pandas, NumPy, scikit-learn, SQL, Data Warehousing, ETL, Data Modelling

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux

Enterprise Systems – ERP Support, Business Systems Integration, Change Management, Production Support, Incident Response

Project Management – Installation Project Management, Timeline Control, Budget Management, Reporting, Customer Communication

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Automated Semiconductor Equipment Installation & Calibration Framework

- Engineered a comprehensive framework for the automated installation and calibration of semiconductor manufacturing equipment, integrating **mechanical assembly**, **electrical connection schematics**, and advanced **robot calibration routines**.
- Developed Python scripts to manage installation checklists, perform automated diagnostic tests, and generate detailed **non-conformance reports**, reducing manual reporting time by **50%** and improving data consistency.
- Integrated with **AWS services** for remote monitoring and logging of installation progress, enabling real-time status updates and facilitating rapid troubleshooting of complex issues across distributed teams, achieving a **98%** first-time-right installation rate.

Financial Services Transaction Monitoring Dashboard

- Developed and maintained a **payments operations dashboard** using **Java Spring Boot** and **PostgreSQL**, providing real-time **transaction monitoring** and operational alerting for a financial-services client.
- Implemented automated **Python ETL processes** to ingest and transform transaction data, supporting complex **reconciliation workflows** and ensuring data integrity for audit trail requirements.
- Collaborated with business analysts to gather requirements and support user acceptance testing (UAT) for new dashboard features, enhancing operational visibility and reducing critical incident response times by **25%**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
