

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed and deployed **Java Spring Boot microservices** to support **real-time financial workflows**, processing over 1 million transactions daily with **99.95% uptime**.
- Engineered **event-driven architectures** using **Kafka** for asynchronous communication between distributed systems, reducing inter-service latency by **40%**.
- Designed and implemented **RESTful APIs** in **Java** to facilitate data exchange for trading, settlement, and analytics operations, supporting **over 50 downstream integrations**.
- Optimized **SQL queries** against **PostgreSQL** databases, enhancing performance for large-scale data processing and analytical reporting by **30%**.
- Managed production support for critical trading platforms, responding to P1/P2 incidents and implementing root cause analyses to prevent recurrence, adhering to strict **SLAs**.
- Collaborated in a **highly technical engineering team** to build scalable backend platforms, contributing to architecture decisions for system reliability and platform improvements across **global platforms**.

SKILLS

Backend Engineering – Java (modern versions), Spring Boot, Microservices, Distributed Systems, Concurrency, Performance Optimization, Scalability.

Event Streaming – Kafka, RabbitMQ, Event-Driven Architectures, High-Throughput Event Streams.

Databases – SQL, Oracle, PostgreSQL, Data Processing, Data Flows.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, CI/CD.

Financial Systems – Trading Operations, Financial Transactions, Settlement Workflows, Market Data Platforms (exposure).

API Development – REST APIs, Service Design, Interoperability.

Observability & Support – Splunk, Dynatrace, Incident Response, SLA Management, Production Support.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Real-Time Trading Data Pipeline (HCL Technologies)

- Architected and built a **distributed backend system** using **Java Spring Boot** to ingest and process high-volume **financial transaction data** from global sources.
- Implemented an **event-driven architecture** with **Kafka**, managing over 500,000 events per second and ensuring reliable data delivery for downstream **trading, settlement, and analytics workflows**.

- Developed **REST APIs** for real-time data access and integrated with **PostgreSQL** for historical data storage, achieving sub-second query response times for critical operational dashboards.

Automated Payment Reconciliation Service (HCL Technologies)

- Developed a **Python-based service** to automate the reconciliation of financial transactions, reducing manual effort by **75%**.
- Integrated with **SQL databases (Oracle, PostgreSQL)** to extract and compare transaction records, identifying discrepancies with **99.9% accuracy**.
- Deployed automated reports using **Jenkins** and **Linux cron jobs**, ensuring timely operational alerting and adherence to **audit trail** requirements for financial services.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
