PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Resolved over **150+ end-user IT issues** per month by providing on-site and remote technical support for hardware and software problems, achieving a **95% first-contact resolution rate**.
- Configured and installed **end-user devices**, including **laptops, workstations, and mobile devices** (iOS/Android), completing an average of **20 setups per week** with high accuracy.
- Performed **second-level support** via phone, email, and remote desktop tools, diagnosing and resolving complex technical problems to maintain **98% user satisfaction scores**.
- Managed **change-control processes** for enterprise business systems and ERP modules, coordinating User Acceptance Testing (UAT) and post-go-live support for **10+ system updates** annually.
- Automated routine IT tasks using **Python scripting**, reducing manual intervention for **software installations** and device configurations by **40%**.
- Documented troubleshooting steps and system configurations for **helpdesk support** knowledge base, contributing to a **15% reduction in recurring issue tickets**.

SKILLS

IT Support – Helpdesk Support, Desktop Support, End-User Support, Troubleshooting, Incident Response

Hardware & Devices – Laptops, Workstations, Printers, Mobile Devices, iOS, Android

Software & Systems – Software Installation, Configuration, Maintenance, Operating Systems (Linux/Windows)

Automation & Scripting – Python, Shell Scripting

Databases & Integrations – SQL (PostgreSQL, MySQL, Oracle), REST APIs

Cloud & Infrastructure – AWS (EC2, S3, CloudWatch), Docker

Tools & Methodologies – Jira, Confluence, Agile/Scrum, Change Management

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Unified End-User Support Portal (HCL Technologies)

- Developed a centralized **IT Helpdesk Support Portal** using **Python (Flask)** and **PostgreSQL** to streamline issue tracking and resolution for over **500 end-users**.
- Integrated **REST APIs** for automated ticket creation from email and phone logs, reducing manual data entry by **60%** and improving response times by **25%**.

- Implemented a searchable knowledge base within the portal, powered by **Confluence data**, which decreased common issue resolution time by an average of **3 minutes per ticket**.

Automated Device Provisioning Pipeline (HCL Technologies)

- Engineered an automated pipeline using **Python** and **Jenkins** to provision and configure new **laptops** and **workstations**, reducing setup time from 2 hours to **30 minutes** per device.
- Integrated with **AWS services** for secure software deployment and utilized **Docker** for consistent environment configuration across all new machines.
- Managed device lifecycle from initial setup to end-user handover, ensuring all **iOS** and **Android** mobile devices met security compliance standards.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
