+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

## PROFESSIONAL EXPERIENCE

**SOFTWARE ENGINEER – HCL Technologies | Chennai, India** 09/2021 – 01/2025 (3.5 Years)

---

- Produced high-quality detailed **General Arrangement drawings**, plans, and sections using **AutoCAD**, contributing to 15+ public realm schemes and reducing design iteration cycles by **18%**.
- Generated **3D models** using **AutoCAD Civil 3D** and **Revit** for transport infrastructure projects, enhancing visualization and cross-disciplinary collaboration, resulting in a **22%** decrease in on-site construction queries.
- Automated routine data analysis tasks for transportation planning reports using **Python** scripting, reducing manual processing time by **40%** and improving data accuracy for project submissions.
- Managed and validated data flows between disparate enterprise systems using **SQL** queries across **PostgreSQL** and **Oracle**, ensuring data integrity for over 50,000 transaction records per day.
- Developed and maintained **Java Spring Boot** REST APIs for internal tooling, supporting feature enhancements that improved system performance by **15%** and reduced bug reports by **25%**.
- Supported production environments for a financial-services operations dashboard, performing incident response and SLA management for critical transaction monitoring workflows, maintaining **99.95%** uptime.

## SKILLS

**CAD Software** – AutoCAD, AutoCAD Civil 3D, Revit

**Programming Languages** – Python, Java, SQL, R

**Development Tools** – Spring Boot, REST APIs, Git, Jenkins, Docker

**Databases** – PostgreSQL, MySQL, Oracle

**Cloud Platforms** – AWS (EC2, S3, Lambda, CloudWatch)

**Data Analytics & BI** – Power BI, DAX, Power Query, Tableau, pandas, NumPy, scikit-learn

**Methodologies** – Agile/Scrum, CI/CD, Change Management, Incident Response

## EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin** 02/2026

---

**BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India** 01/2021

---

## PROJECTS

### **Sustainable Mobility Planning Dashboard (Arup Group)**

- Designed and developed an interactive dashboard using **Power BI** to visualize key transportation planning metrics, including traffic flow, public transit usage, and carbon emissions, for over 20 project sites.
- Integrated data from multiple sources (GIS, traffic simulation outputs, census data) via **Power Query** and implemented complex **DAX** measures to derive actionable insights for sustainable community development strategies.

- Published and managed report refreshes, providing **real-time analytics** to senior planners and clients, enabling data-informed decision-making that influenced project designs and resource allocation, reducing planning cycle times by an estimated **10%**.

#### **Automated Transaction Reconciliation System (HCL Technologies)**

- Built an automated reconciliation workflow using **Python** and **SQL** to compare transaction records between two financial systems, identifying discrepancies and generating exception reports with **99.8%** accuracy.
- Developed a **Java Spring Boot** service to process inbound transaction messages, flagging anomalies for manual review and contributing to a **30%** reduction in manual reconciliation effort for a major financial-services client.
- Managed CI/CD pipelines with **Jenkins** for deployment of Python scripts and Java services to a **Linux** environment, ensuring reliable and timely execution of batch reconciliation processes.

### **ACHIEVEMENTS & CERTIFICATIONS**

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
