PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Organised ecological input for **infrastructure** projects, coordinating field surveys and ensuring data integrity for **Ecological Impact Assessments (EcIA)**, achieving compliance with best practice standards.
- Managed ecological data using **GIS (QGIS, ArcGIS)**, preparing concise reports and contributing to **biodiversity chapters for Environmental Impact Assessment Reports (EIAR)**, supporting Senior Consultants.
- Developed **Python** scripts to automate data processing for ecological surveys, reducing manual data entry time by **40%** and improving report generation efficiency for **terrestrial and freshwater** specialisms.
- Supported delivery of key infrastructure projects by analysing ecological data, identifying potential impacts, and contributing to **Appropriate Assessments**, meeting strict project timelines.
- Enhanced production support for financial services operations by implementing automated alerting for failed transactions, reducing critical incident response time by **30%** using **Java Spring Boot** and **Splunk**.
- Contributed to the development of a payments operations dashboard, implementing transaction monitoring features and reconciliation workflows to improve data accuracy by **15%** within regulated environments.

SKILLS

Ecology & Environmental Science – Ecological Impact Assessment (EcIA), Appropriate Assessments, Preliminary Ecological Appraisals (PEA), Biodiversity Chapters (EIAR), Terrestrial Ecology, Freshwater Ecology, Habitats, Botany, Ornithology, Terrestrial Mammals, Bats, Field Surveys

Data Management & Analysis – GIS (QGIS, ArcGIS, MapInfo), Data Analysis, Numerical Skills, Logical Thinking, Statistical Analysis, Data Visualisation

Programming & Scripting – Python, Java, SQL, Spring Boot, R

Reporting & Documentation – Concise Reporting, Technical Writing, Report Preparation, Best Practice Standards

Project & Teamwork – Team Collaboration, Independent Work, Organising and Managing Input, Stakeholder Engagement, Project Delivery Support

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Ecological Survey Data Management & Reporting Platform (HCL Technologies)

- Developed a comprehensive platform for managing and analysing ecological survey data, integrating **Python** for data cleaning and **SQL (PostgreSQL)** for database management, supporting **terrestrial and freshwater** studies.
- Implemented automated report generation features for **Ecological Impact Assessments (EcIA)** and **biodiversity chapters for EIAR**, reducing report compilation time by **50%** and ensuring adherence to best practice standards.
- Integrated **GIS capabilities (QGIS)** for spatial data visualisation and analysis, enabling stakeholders to easily interpret habitat mapping and species distribution, thereby improving decision-making for infrastructure projects.

Financial Transaction Monitoring Dashboard Enhancement (HCL Technologies)

- Engineered enhancements for a financial services operations dashboard, focusing on real-time transaction monitoring and automated alerting for failed payment messages, using **Java Spring Boot** and **Splunk**.
- Developed and refined reconciliation workflows, improving data accuracy and reducing discrepancies by **15%**, while ensuring operational environments maintained audit trails and regulatory awareness.
- Collaborated with business analysts to gather requirements for new monitoring features, facilitating UAT support and post-implementation triage to ensure seamless integration with existing systems.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
