## PROFESSIONAL EXPERIENCE

**SOFTWARE ENGINEER – HCL Technologies | Chennai, India** 09/2021 – 01/2025 (3.5 Years)

---

- Managed the reconciliation and execution of **corporate action elections** within strict timelines, ensuring 99.8% accuracy across high-volume transactions for a financial services client.
- Reconciled, calculated, and booked **corporate action entitlements** for diverse business units, reducing reconciliation discrepancies by **18%** through enhanced data validation protocols.
- Provided critical client servicing and support for trading desks by resolving complex queries related to asset services operations, achieving a **95%** positive feedback score.
- Collaborated with cross-functional operational teams to swiftly investigate and resolve issues impacting trade lifecycle management, minimizing operational risk and downtime by **15%**.
- Executed timely management of positions and recovery of funds from external counterparties, monitoring outstanding balances and reducing aged items by **22%** through proactive follow-up.
- Participated in and contributed to multiple **asset services initiatives and projects**, focusing on process improvement and the implementation of new operational workflows, leading to a **10%** increase in processing efficiency.

## SKILLS

**Corporate Actions** – Voluntary Events, Mandatory Events, Entitlement Processing, Election Management, Reconciliation

**Financial Services Operations** – Asset Services, Trade Lifecycle Management, Risk Management, Client Servicing, Operational Support

**Data Analysis & Reporting** – Data Reconciliation, Query Resolution, Business Acumen, Performance Monitoring, Stakeholder Communication

**Project Management & Process Improvement** – Initiative Participation, Workflow Implementation, Timely Deliverables, Collaboration, Adaptability

**Core Technologies** – SQL, Python, Java, AWS, Linux, Jenkins, Jira, Confluence, Splunk, Dynatrace

**Business Intelligence** – Power BI, Tableau, DAX, Power Query, Data Modelling

**Analytics & Statistics** – R, pandas, NumPy, scikit-learn, Statistical Analysis

## EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin** 02/2026

---

**BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India** 01/2021

---

## PROJECTS

**Automated Corporate Action Election and Reconciliation System (HCL Technologies)**

- Developed an automated system using **Python and SQL** to process and reconcile voluntary and mandatory corporate action elections for financial services clients, reducing manual intervention by **70%**.
- Integrated with upstream data feeds to capture event details and downstream systems for booking entitlements, ensuring data integrity and timely processing across **50,000+** transactions monthly.
- Implemented comprehensive audit trails and reporting dashboards in **Power BI** to monitor election status, reconcile cash and stock positions, and identify exceptions, improving visibility for stakeholders by **40%**.

#### **Payments Operations Dashboard Enhancement (HCL Technologies)**

- Enhanced a payments operations dashboard with **Java Spring Boot** and **PostgreSQL**, adding real-time transaction monitoring for failed payment messages, decreasing average incident resolution time by **25%**.
- Automated anomaly detection using **Python scripting** and integrated alerts via **Splunk**, proactively identifying and flagging reconciliation issues in payment flows.
- Supported production environments with strict SLAs, contributing to regulatory awareness and GDPR compliance through robust logging and audit trail maintenance.

### **ACHIEVEMENTS & CERTIFICATIONS**

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
