

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed and deployed AI-powered product features using **Python** and **FastAPI**, enhancing user experience for millions of customers and achieving a **15%** increase in feature adoption.
- Integrated **Rust**-based microservices into existing architectures, improving system performance and reliability by **20%** for critical backend operations.
- Automated software testing and deployment pipelines using **Jenkins** and **GitOps** principles on **Kubernetes**, reducing release cycle time by **40%**.
- Refactored monolithic applications into scalable microservices using **Java Spring Boot** and **gRPC**, supporting end-to-end ownership and simplifying maintenance for complex systems.
- Implemented advanced data processing and transformation logic using **Python** with **pandas** and **NumPy**, reducing data preparation time for AI model training by **30%**.
- Enhanced system observability and incident response by integrating **Splunk** and **Dynatrace** dashboards, decreasing mean time to resolution (MTTR) for production issues by **25%**.

SKILLS

Programming Languages – Python, Rust, Java, SQL, English

Frameworks & Libraries – Spring Boot, FastAPI, Flask, pandas, NumPy, scikit-learn

Cloud & Containerization – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes

Databases – PostgreSQL, MySQL, Oracle

Development Tools & CI/CD – Git, Jenkins, Jira, Confluence, gRPC, REST APIs

Data Analysis & BI – Power BI, Tableau, DAX, Power Query, R, RStudio

AI & ML Concepts – Machine Learning Fundamentals, Supervised/Unsupervised Learning, Statistical Methods

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

AI-Powered Product Enhancement Platform (HCL Technologies)

- Architected and built an end-to-end AI platform using **Python**, **FastAPI**, and **PostgreSQL** to deliver personalized user experiences within enterprise applications.
- Integrated machine learning models for predictive analytics, achieving a **90%** accuracy rate in identifying user engagement patterns and informing product development.

- Developed scalable data pipelines with **pandas** and **NumPy**, processing over 1TB of user interaction data daily to train and refine AI models, reducing data latency by **50%**.

Real-Time Transaction Monitoring Dashboard (HCL Technologies)

- Developed a **Java Spring Boot** application to process and monitor financial transactions, ensuring high availability for a critical payments operations dashboard.
- Implemented robust alerting mechanisms using **Splunk**, reducing the time to detect and respond to failed transaction messages by **35%**.
- Managed database schema changes and performed data validation across **PostgreSQL** and **Oracle** databases, supporting reconciliation workflows and audit trail requirements.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
