PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Delivered end-to-end software features for a **payments operations dashboard**, developing **Java Spring Boot REST APIs** and improving transaction monitoring logic, resulting in a **15% reduction** in critical alerts.
- Automated data ingestion and reporting processes using **Python scripting** and **SQL** against PostgreSQL databases, streamlining data pipeline execution and reducing manual effort by **20 hours per week**.
- Managed production incidents and SLA adherence for enterprise applications, performing root cause analysis using **Splunk** and **Dynatrace**, and implementing fixes that improved system uptime to **99.95%**.
- Enhanced ERP system integrations by developing and supporting **REST APIs** and database-level data flows across **PostgreSQL** and **Oracle**, ensuring seamless data exchange between business platforms.
- Developed interactive **Power BI dashboards** with complex **DAX measures** and optimized data models, enabling business stakeholders to gain actionable insights from financial data, leading to a **10% improvement** in forecasting accuracy.
- Contributed to CI/CD pipeline enhancements with **Jenkins** and **Git**, improving code deployment frequency by **30%** and reducing integration issues through rigorous code reviews.

SKILLS

Backend Development – Java, Spring Boot, Python, Flask, FastAPI, REST APIs, Microservices, Docker

Databases & Data Warehousing – SQL, PostgreSQL, MySQL, Oracle, Data Modelling, DAX, Power Query

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Jenkins, Git, Linux, Shell Scripting, CI/CD

Business Intelligence – Power BI, Tableau, Data Visualization, Operational Reporting

Data Analysis & ML – pandas, NumPy, scikit-learn, R, Statistical Analysis, Exploratory Data Analysis

Enterprise Systems – ERP Support, Change Management, Production Support, Incident Response, GDPR Compliance

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Real-Time Transaction Monitoring and Alerting System (HCL Technologies)

- Engineered a high-throughput system for a financial-services client to monitor millions of daily transactions, processing inbound messages via **Java Spring Boot** services deployed on **AWS EC2**.
- Implemented complex business rules for anomaly detection and alerting, reducing the time-to-detect for critical payment processing failures by **40%**, utilizing **PostgreSQL** for state management.

- Developed comprehensive operational dashboards in **Power BI**, integrating real-time data feeds and historical logs from **Splunk**, providing a unified view of transaction health and system performance.

Automated ERP Data Reconciliation Pipeline

- Developed a **Python**-based pipeline to automate the reconciliation of financial data between an ERP system and downstream operational databases (**Oracle, MySQL**), processing over **1 million records** daily.
- Designed and implemented robust error handling and logging mechanisms using **FastAPI**, ensuring data integrity and providing clear audit trails for all reconciliation discrepancies.
- Integrated the pipeline into a **Jenkins** CI/CD workflow, enabling automated deployments and scheduled execution, reducing manual reconciliation cycles by **75%**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
