PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Facilitated ****AI feature integration**** by defining use cases and success metrics for machine learning models, contributing to a **15%** improvement in automated workflow efficiency.
- Gathered and documented business requirements, translating them into clear, actionable user stories and functional specifications for new software features, reducing clarification cycles by **20%**.
- Conducted detailed gap analysis and process mapping across enterprise systems, identifying opportunities for software optimization and AI-driven enhancements, leading to a projected **10%** operational cost reduction.
- Supported the development lifecycle of software projects by bridging communication between technical teams and business stakeholders, ensuring alignment on project goals and deliverables.
- Managed and maintained project documentation and backlogs within ****Agile/Scrum frameworks****, facilitating effective sprint planning and retrospective meetings.
- Coordinated and executed User Acceptance Testing (UAT) by creating comprehensive test scripts, ensuring the final product met original business intent and achieving a **98%** pass rate on critical test cases.

SKILLS

Business Analysis – Requirements Elicitation, User Stories, Functional Specifications, Gap Analysis, Process Mapping, UAT, Agile Methodologies

AI & Machine Learning – AI Feature Integration, ML Model Use Cases, Data Requirements Definition, Success Metrics

Software Development Lifecycle – Agile/Scrum, Sprint Planning, Retrospectives, Project Documentation, Backlog Management

Data & Reporting – Data Interpretation, Stakeholder Presentation, Power BI, Tableau, R, Python (pandas, NumPy)

Technical Skills – SQL (PostgreSQL, MySQL, Oracle), Java Spring Boot, Python, REST APIs, AWS, Linux, Docker, Jenkins, Splunk, Dynatrace

Domain Knowledge – Financial Services Operations, Payments Processing, Transaction Monitoring, ERP Systems Support

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

AI-Driven Customer Insights Dashboard (MSc Data Analytics)

- Developed an interactive dashboard using **Power BI** to visualize customer behavior patterns and predict churn, incorporating **DAX** measures for key performance indicators.
- Performed extensive data modelling and ETL processes using **Power Query**, integrating data from multiple sources to create a unified analytical dataset for the dashboard.
- Presented analytical findings and dashboard insights to business stakeholders, enabling data-informed strategic decisions that contributed to a **7%** increase in customer retention.

Payments Operations Dashboard Enhancement (HCL Technologies)

- Enhanced a financial-services client's payments operations dashboard by implementing real-time transaction monitoring and automated alerting for failed payment messages, improving incident response time by **30%**.
- Developed Python scripts to automate data validation and reconciliation workflows within the dashboard, reducing manual effort by **40%** and ensuring data integrity.
- Managed change requests and deployed updates to production environments using **Jenkins** pipelines, adhering to strict SLAs and maintaining audit trails for all system changes.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
