

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed and deployed predictive models and machine learning solutions, achieving a **15% improvement** in forecast accuracy for inventory management by analysing complex datasets to identify trends and patterns.
- Contributed to the design and implementation of AI initiatives, including automation and advanced analytics, by collaborating with cross-functional teams to translate business requirements into data science solutions, resulting in a **20% reduction** in manual data processing time.
- Supported the development of data pipelines and reporting tools, integrating **Python** scripts with **SQL** databases to automate data extraction and transformation, delivering timely insights for operational decision-making and achieving a **30% faster** report generation cycle.
- Enhanced data governance and model governance practices by documenting model lifecycles and performance metrics, ensuring compliance with responsible AI principles and facilitating a **10% increase** in model explainability for stakeholders.
- Analysed complex datasets using **R** and **Python** (pandas, NumPy), identifying key trends and patterns in pharmaceutical sales data to inform strategic business decisions and support innovation, leading to a **5% uplift** in targeted marketing campaign effectiveness.
- Presented findings and recommendations from data science analyses to both technical and non-technical stakeholders, translating complex results into actionable insights that informed strategic planning and contributed to a **10% increase** in project alignment with business objectives.

SKILLS

Data Science & AI – Predictive Modelling, Machine Learning, AI Initiatives, Data Analysis, Generative AI Concepts, NLP, Prompt Engineering, Responsible AI

Programming Languages – Python, R, SQL

Data Tools & Platforms – Power BI, Tableau, AWS (EC2, S3, Lambda, CloudWatch), Azure, GCP, Hadoop, Spark

Data Engineering – Data Pipelines, ETL, Data Warehousing, Database Management (PostgreSQL, MySQL, Oracle)

Software Development – Java Spring Boot, REST APIs, Docker, Git, CI/CD (Jenkins)

Business Intelligence – Dashboard Development, Data Visualisation, DAX Measures, Power Query

Methodologies – Agile/Scrum, Statistical Analysis, A/B Testing, Time-Series Analysis, Model Governance

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

AI-Driven Pharmaceutical Demand Forecasting Platform

- Developed a predictive analytics platform using **Python** and **scikit-learn** to forecast demand for animal health products, improving forecast accuracy by **18%** and reducing stockouts by **12%**.
- Engineered data pipelines integrating data from disparate sources (sales, market trends, weather patterns) using **SQL** and **AWS Lambda**, ensuring data integrity and availability for model training and analysis.
- Created interactive dashboards in **Power BI** to visualize demand forecasts, key drivers, and prediction confidence intervals, enabling supply chain managers to make data-informed inventory decisions and achieve a **15% reduction** in excess inventory costs.

Real-Time Transaction Monitoring Dashboard (HCL Technologies)

- Built a real-time dashboard using **Java Spring Boot** and **Splunk** to monitor financial transaction flows, reducing incident detection time for failed payments by **40%**.
- Implemented automated alerting mechanisms based on critical metrics and error patterns, decreasing P1/P2 incident response time by **25%** and ensuring adherence to strict SLAs.
- Collaborated with operations teams to define key performance indicators and operational metrics, enhancing visibility into transaction processing health and supporting regulatory compliance through detailed audit trails.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
