PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Managed user inquiries for a **Supply Chain Platform** via email and phone, resolving **95%** of Level 1 issues and escalating complex problems to the change management team, improving average ticket resolution time by **18%**.
- Analyzed and monitored system issues for internal and external clients, providing proactive solutions and workarounds that reduced critical incidents by **22%** within the first quarter of support.
- Identified and documented recurrent application issues, collaborating with the change management team to implement permanent fixes and system enhancements, leading to a **15%** reduction in user-reported bugs.
- Performed system monitoring and reporting on platform performance and control execution, ensuring adherence to service level agreements (SLAs) and regulatory requirements for a business-critical application.
- Developed **Python scripts** to automate data validation and reporting tasks for the payments operations dashboard, reducing manual effort by **40%** and improving data accuracy.
- Supported and integrated with **ERP** and enterprise business systems, coordinating change control management and UAT for system configuration updates, ensuring seamless cross-system data flows.

SKILLS

Application Support – Issue Analysis, Incident Management, Change Management, SLA Management, User Query Management, Problem Identification

Core Technologies – Java, Spring Boot, Python, SQL, REST APIs, Linux, Git

Databases – PostgreSQL, MySQL, Oracle

Cloud & CI/CD – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins

Monitoring & Observability – Splunk, Dynatrace, CloudWatch

Business Systems – ERP Support, Payments Operations Dashboard, Supply Chain Platform Support

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, Data Warehousing

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Payments Processing & Reconciliation Dashboard (HCL Technologies)

- Developed and maintained a **payments operations dashboard** for a financial services client, providing real-time transaction monitoring and operational alerting for failed or stalled payment messages.
- Implemented automated reconciliation workflows using **Python** and **SQL** against PostgreSQL and Oracle databases, reducing manual reconciliation effort by **30%** and improving accuracy.

- Managed production support activities, including SLA adherence, P1/P2 incident response, and root cause analysis for transaction processing issues, ensuring **99.9%** uptime for critical financial operations.

Supply Chain Finance Platform Support Automation

- Engineered automated issue detection and diagnostic scripts using **Python** and **Bash** for a **Supply Chain Platform**, reducing mean time to identify critical issues by **25%**.
- Integrated monitoring alerts from Splunk and Dynatrace into a centralized ticketing system, correlating performance metrics with user-reported issues to proactively address potential problems.
- Collaborated with business analysts to analyze user queries and platform behavior, documenting findings and proposing solutions that enhanced user experience and system reliability.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
