PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Resolved over **150 escalated technical issues** per quarter for end-users by diagnosing and fixing problems across **Microsoft 365, Windows desktop & server environments**, and **network infrastructure**, maintaining a **95% SLA compliance** rate.
- Managed and remediated **ticket queues** within defined SLAs, successfully closing an average of **20 tickets daily** through proactive troubleshooting and efficient escalation to Level 3 support for complex system failures.
- Executed regular **system maintenance**, including patches and updates for **Windows Server** and **cloud environments** (AWS, Azure), contributing to a **10% reduction** in critical system vulnerabilities.
- Developed and maintained over **50 internal documentation articles** and knowledge base entries, improving onboarding efficiency for new support staff by an estimated **20%**.
- Supported user account and device management for **onboarding and offboarding processes**, ensuring secure and timely access provisioning/deprovisioning for over **300 employees**.
- Contributed to a **network infrastructure upgrade project**, migrating core switches and routers while minimizing downtime to less than **2 hours** per deployment phase.

SKILLS

Operating Systems & Cloud – Windows Desktop, Windows Server, AWS, Azure, Linux, M365 Admin Center

End-User Support & Networking – Microsoft 365, Outlook, SharePoint, Teams, OneDrive, VPNs, Printers, Mobile Devices, Basic Network Troubleshooting (Firewalls, Routers, Switches)

Ticketing & Documentation – Service Desk Systems, Jira, Confluence, Knowledge Base Management

Automation & Scripting – Python, Shell Scripting

Development & Monitoring – Java Spring Boot, REST APIs, Splunk, Dynatrace

Databases & Integrations – SQL (PostgreSQL, MySQL, Oracle), ERP Systems Support

Project Support – Migrations, Upgrades, Change Management

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Unified IT Support Knowledge Base & Automation Platform

- Developed a centralized **knowledge base platform** using **Python (Flask)** and **PostgreSQL**, integrating with the company's ticketing system to provide instant access to troubleshooting guides for **over 50 common IT issues**.

- Automated routine support tasks, including user account creation and password resets, via **REST APIs** and shell scripting, reducing manual intervention time by **30%** and improving ticket resolution speed.
- Implemented proactive monitoring alerts using **Splunk** for critical system health indicators, enabling the support team to address potential issues before they impacted end-users, resulting in a **15% decrease** in P1 incidents.

Financial Services Transaction Monitoring Dashboard

- Enhanced a **payments operations dashboard** by implementing real-time transaction monitoring capabilities, reducing the time to detect failed payment messages from **1 hour to 5 minutes**.
- Developed automated alerting mechanisms for reconciliation workflows and operational issues, ensuring **99.9% uptime** for critical financial transaction processing.
- Collaborated with business analysts to refine operational dashboards, providing clear visibility into transaction flows and supporting regulatory compliance through robust audit trails.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
