PROJECTS

Executive KPI Dashboard Consolidation (Power BI)

- Developed a unified **Power BI** dashboard consolidating key performance indicators from 12 disparate business units within a financial services context, providing executive leadership with a single source of truth for asset management performance.
- Engineered data models and wrote complex **DAX** measures to aggregate and analyze financial data, enabling real-time tracking of AUM, fund performance metrics, and investor reporting accuracy, reducing report

generation time by **40%**.

- Implemented data extraction, transformation, and loading (ETL) processes using **Power Query** to integrate data from multiple sources, ensuring data integrity and facilitating granular drill-down capabilities for detailed analysis.

Financial Transaction Monitoring System (HCL Technologies)

- Enhanced a **payments operations dashboard** by implementing robust transaction monitoring and alerting for failed or stalled payment messages, directly supporting a financial services client's operational efficiency.
- Developed **Java Spring Boot** services and **Python** scripts to process and validate inbound financial transaction data, ensuring adherence to operational SLAs and improving the accuracy of reconciliation workflows.
- Managed production support, including incident response and log analysis using **Splunk**, for a critical system processing high volumes of financial transactions, maintaining system uptime above **99.95%**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
