PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and implemented new features for the Webex collaboration platform, contributing to a **15% increase** in user engagement metrics by developing **REST APIs** within an **agile** team structure.
- Managed the operational health of **highly available microservices** on **AWS**, resolving an average of **5 critical incidents** per sprint through proactive monitoring with **Splunk** and **Dynatrace**.
- Automated data validation and reporting processes using **Python scripting** and **SQL**, reducing manual effort by **40%** and improving data accuracy for financial operations dashboards.
- Developed and maintained **Jenkins CI/CD pipelines** for Java Spring Boot applications, shortening deployment cycles by **20%** and ensuring code quality through rigorous **Git branching** strategies and code reviews.
- Enhanced a **payments operations dashboard** by implementing real-time transaction monitoring and alerting, leading to a **30% reduction** in payment processing errors and improved **GDPR-aware audit trails**.
- Supported and integrated enterprise business systems, including **ERP** modules, by developing **REST APIs** and managing change-control processes, ensuring seamless data flows across interconnected platforms.

SKILLS

Backend Development – Java, Spring Boot, Python, Node.js, NestJS, Flask, FastAPI, REST APIs, Microservices.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, Shell Scripting, Jenkins, Git, CI/CD.

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, R, RStudio, pandas, NumPy, scikit-learn, Data Modelling, Data Warehousing.

Databases – PostgreSQL, MySQL, Oracle, SQL.

Monitoring & Observability – Splunk, Dynatrace, CloudWatch.

Project Management & Collaboration – Agile, Scrum, Jira, Confluence, Change Management, UAT Support.

Domain Knowledge – Financial Services Operations Dashboards, Transaction Monitoring, Reconciliation Workflows, ERP Systems Support.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Webex Real-Time Collaboration Metrics Dashboard (Cisco)

- Engineered a **real-time analytics dashboard** for Webex Meetings using **Python** and **FastAPI** to process and visualize **10,000+ events per second**, enabling immediate identification of performance bottlenecks.
- Integrated with **AWS Lambda** and **CloudWatch** to ingest streaming data, building efficient **data pipelines** that reduced data latency by **50%** for critical operational insights.

- Developed interactive visualizations in **Power BI** with custom **DAX measures**, providing stakeholders with a 360-degree view of user experience and system health, contributing to a **25% improvement** in issue resolution time.

Automated Payment Reconciliation System (HCL Technologies)

- Developed a **Python-based automation tool** that processed and reconciled **millions of financial transaction records** daily, achieving **99.95% accuracy** and identifying discrepancies within minutes.
- Implemented robust error handling and alerting mechanisms using **Java Spring Boot** services, reducing manual intervention for reconciliation failures by **70%** and ensuring adherence to strict SLAs.
- Managed database interactions with **PostgreSQL**, performing complex queries and schema updates to support high-volume transaction data processing and maintain audit trail integrity.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
