PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and implemented **end-user features** for the Webex platform, used by millions globally, improving user engagement metrics by **15%**.
- Translated complex product requirements into actionable technical tasks, developing **maintainable backend components** within the existing Java Spring Boot framework, reducing bug reports by **20%**.
- Analyzed customer feedback and operational metrics using **Splunk and CloudWatch** to troubleshoot and resolve P1/P2 incidents, restoring service levels within **99.9% SLA targets**.
- Developed Python scripts to automate data pipeline processes and scheduled reporting, enhancing data availability for business stakeholders and reducing manual effort by **30%**.
- Collaborated with cross-functional teams including product managers and designers to deliver high-quality features, iterating rapidly based on feedback and improving **CSAT scores by 10%**.
- Optimized application performance across Linux and AWS environments by implementing **efficient SQL queries** against PostgreSQL databases, decreasing average query response times by **25%**.

SKILLS

Backend Development – Java, Spring Boot, RESTful APIs, WebSockets, Python, Flask, FastAPI

Frontend Development – React, Angular

Databases – PostgreSQL, MySQL, Oracle, SQL

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux

Monitoring & Observability – Splunk, Dynatrace, CloudWatch

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, pandas, NumPy, R

Methodologies – Agile, Scrum, CI/CD, Change Management, Incident Response

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Webex Collaboration Enhancement Platform (HCL Technologies)

- Engineered a **real-time notification service** using Java Spring Boot and WebSockets to deliver instant updates within the Webex platform, processing over **10 million messages daily**.
- Developed **data pipelines with Python and pandas** to ingest user interaction data from various sources, feeding into an analytics dashboard that tracked key performance indicators like CSAT and NPS.

- Implemented comprehensive **unit and integration tests** within Jenkins CI pipelines, achieving over **90% code coverage** and reducing production regressions by **40%**.

Financial Services Transaction Monitoring Dashboard

- Built and maintained a **payments operations dashboard** for a financial-services client, providing real-time monitoring of transaction flows and alerting on failed or stuck messages.
- Automated reconciliation workflows using **SQL and Python scripts** across PostgreSQL and Oracle databases, reducing manual reconciliation time by **50%** and improving data accuracy.
- Ensured adherence to **GDPR and regulatory awareness** within the production environment, implementing robust audit trails and secure data handling practices.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
