

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Assisted senior engineers with energy assessments and data collection across 15+ industrial client sites, contributing to baseline energy usage reports.
- Analyzed energy consumption data using **Python** and **Excel**, identifying inefficiencies and contributing to the development of energy saving opportunities projected to reduce costs by **18%**.
- Supported the preparation of technical reports and engineering calculations for feasibility studies, detailing proposed HVAC and steam system upgrades.
- Gained hands-on exposure to core industrial utility systems including **HVAC**, **Steam**, and **Compressed Air**, aiding in diagnostic troubleshooting.
- Contributed to energy audits and baseline development in alignment with standards such as **IS 399** and **EN 16247**, ensuring compliance and accurate savings validation.
- Participated in client meetings and site visits, developing technical communication skills and supporting stakeholder engagement for decarbonisation projects.

SKILLS

Engineering Disciplines – Mechanical Engineering, Electrical Engineering, Energy Engineering, Building Services

Energy & Sustainability Standards – IS 399, EN 16247, ISO 50001, IPMVP

Data Analysis Tools – Excel (Advanced), Python (pandas, NumPy), R

Industrial Systems – HVAC, Steam, Chilled Water, LPHW, Compressed Air, Cooling Towers, Electrical Distribution

Reporting & Documentation – Technical Reports, Feasibility Studies, Engineering Calculations, Design Documentation, Project Scopes

Software & Technologies – AutoCAD (Basic), Revit (Basic), MATLAB (Basic), Power BI, Tableau

Project Support – Site Surveys, Data Collection, Measurement & Verification (MV), Cost Estimation

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Industrial Energy Efficiency Dashboard (MSc Data Analytics Project)

- Developed an interactive dashboard using **Power BI** to visualize energy consumption patterns across diverse industrial client sectors, enabling rapid identification of high-impact areas.

- Implemented complex **DAX** measures and Power Query transformations to aggregate and clean data from multiple sources, reducing manual data preparation time by **40%**.
- Modeled energy usage data, incorporating operational parameters, to support feasibility studies for energy-saving initiatives, projecting potential savings of up to **22%** for key clients.

Automated Transaction Monitoring System (HCL Technologies)

- Engineered Python scripts to automate the monitoring of transaction flows within a financial-services dashboard, reducing manual oversight by **30%**.
- Developed and maintained **SQL** queries across PostgreSQL and Oracle databases for data validation and anomaly detection in reconciliation workflows.
- Implemented alerting mechanisms using **Splunk**, reducing the mean time to detect critical payment processing issues by **25%**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
