PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Resolved **production incidents** impacting **payments operations** by performing root cause analysis and implementing fixes, reducing critical alerts by **15%**.
- Automated data validation checks for transaction records using **Python scripting**, decreasing manual review time by **20%** and improving data accuracy.
- Developed and deployed **REST APIs** in **Java Spring Boot** for integrating enterprise business systems, enabling seamless data flow across platforms.
- Managed configuration updates and coordinated User Acceptance Testing (UAT) for **ERP system** changes, ensuring smooth integration and minimal disruption.
- Analyzed business requirements and translated them into technical specifications for enhancements to a **financial-services dashboard**, collaborating with cross-functional teams.
- Constructed interactive **Power BI dashboards** from disparate data sources, providing stakeholders with actionable insights and improving decision-making speed by **25%**.

SKILLS

Data Analysis & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, Business Intelligence, Exploratory Data Analysis.

Programming Languages – Python, Java, SQL, R.

Backend Development – Spring Boot, REST APIs, Flask, FastAPI.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux.

Databases & Data Warehousing – PostgreSQL, MySQL, Oracle, Data Warehousing Concepts.

Operations & Support – Production Support, Incident Management, SLA Management, Splunk, Dynatrace, Change Management, UAT Coordination.

Business Systems – ERP Systems, Financial Services Dashboards, Transaction Monitoring, Reconciliation Workflows.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Data Quality & Compliance Dashboard (HCL Technologies)

- Engineered a comprehensive **data quality dashboard** using **Power BI** and **SQL**, aggregating data from PostgreSQL and Oracle databases to monitor transaction integrity.

- Implemented automated data profiling scripts in **Python** that identified and flagged over **5,000** anomalous records weekly, achieving a **98%** accuracy rate in detecting data discrepancies.
- Collaborated with business analysts to define key performance indicators for **regulatory compliance** and audit trails, reducing manual reporting efforts by **30%**.

Automated Payment Reconciliation System

- Designed and built a Python-based system to automate the reconciliation of financial transactions, processing over **1 million records** daily.
- Developed **RESTful APIs** using FastAPI for integrating with upstream and downstream financial systems, ensuring seamless data exchange and reducing processing latency by **20%**.
- Integrated real-time monitoring with **Splunk** and implemented alerting for reconciliation failures, ensuring adherence to strict operational SLAs and maintaining data consistency across systems.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
