PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed production support and incident response for enterprise applications, achieving **99.9% SLA adherence** by resolving P1/P2 incidents within defined timeframes using **Splunk** and **Dynatrace**.
- Developed Python scripts to automate data pipelines and ETL processes, reducing manual data processing time by **30%** and improving data accuracy for scheduled reporting.
- Executed complex SQL queries across **PostgreSQL** and **Oracle** databases for data validation and schema updates, supporting critical business reporting and system integrations.
- Implemented new features and resolved bugs in Java Spring Boot applications, designing and developing **REST APIs** that enhanced service functionality and integration capabilities.
- Supported the maintenance and enhancement of a financial-services operations dashboard, focusing on **transaction monitoring** and operational alerting for payment message flows, contributing to **GDPR** compliance and audit trail integrity.
- Coordinated change management processes for enterprise business systems, including UAT and post-go-live support for system configurations and cross-system integrations via **REST APIs**.

SKILLS

Programming Languages – Python, Java, SQL, R

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Monitoring & Observability – Splunk, Dynatrace

Business Intelligence – Power BI, Tableau, DAX, Power Query

Methodologies – Agile, Scrum, Change Management, Data Modelling

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Customer Engagement & Data Verification Platform

- Designed and developed a platform to manage customer data verification workflows, integrating outbound communication channels to confirm information accuracy against client policies, directly supporting **customer engagement** objectives.
- Implemented automated data entry and update mechanisms into client platforms via **REST APIs**, processing over **1,000 verification updates** daily with a **99.5% accuracy rate**.

- Built reporting dashboards in **Power BI** to track verification progress, identify bottlenecks, and ensure adherence to all **compliance requirements** and data privacy standards.

Financial Services Transaction Monitoring Dashboard

- Enhanced a payments operations dashboard to provide real-time **transaction monitoring** for financial client, improving visibility into payment message statuses and reducing incident detection time by **25%**.
- Developed automated alerts for failed or stuck payment messages, contributing to efficient **reconciliation workflows** and minimizing operational disruptions.
- Collaborated with business analysts to refine operational alerting logic and support **GDPR**-aware audit trail requirements within the production environment.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
