PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Assessed and reviewed user-generated data against established client policies for a global technology platform, ensuring adherence to content guidelines and mitigating policy violations for over 10,000 daily submissions.
- Engaged with businesses via outbound phone calls to verify information and update client platforms, successfully resolving 95% of verification inquiries within the first contact.
- Managed production support for a financial-services operations dashboard, addressing P1/P2 incidents and maintaining 99.9% uptime for transaction monitoring workflows.
- Developed Python scripts to automate data extraction and reporting tasks, reducing manual processing time for operational metrics by 40% and improving data accuracy.
- Collaborated with cross-functional teams and business analysts to gather requirements and support User Acceptance Testing (UAT) for enterprise business systems, facilitating smoother system updates.
- Contributed to feature enhancements and bug fixes for Java Spring Boot microservices, improving API response times by an average of 15%.

SKILLS

Content Review & Policy Adherence – Data assessment, Client policy enforcement, Compliance monitoring, Accuracy verification, Regulatory awareness

Communication & Stakeholder Engagement – Outbound communication, Business engagement, Verbal and written communication, Customer support, Cross-functional collaboration

Data Analysis & BI Tools – Power BI, Tableau, DAX, Power Query, Data modelling, R, Python (pandas, NumPy, scikit-learn)

Software Engineering & Cloud – Java Spring Boot, Python, SQL (PostgreSQL, MySQL, Oracle), REST APIs, AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux

Production Support & Operations – Splunk, Dynatrace, CloudWatch, Incident response, SLA management, Change management, CI/CD (Jenkins, Git)

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Global Content Moderation & Compliance Platform (Cognizant)

- Developed a Python-based data ingestion pipeline to process and categorize user-generated content from multiple global sources, handling over 50,000 submissions daily.

- Implemented automated data validation rules using SQL and **Power BI** to flag content for manual review based on client-specific policies, increasing review accuracy by **22%**.
- Designed and deployed an interactive dashboard in **Power BI** to visualize moderation trends, policy violation rates, and team performance metrics for stakeholders, enabling data-informed operational adjustments.
- Integrated with client APIs to facilitate real-time updates and verification of business information, ensuring data consistency across platforms and improving operational efficiency by **18%**.

Financial Services Transaction Monitoring Dashboard (HCL Technologies)

- Enhanced a Java Spring Boot application for a financial-services client to monitor transaction flows, implementing real-time alerting for failed payment messages.
- Automated incident triage and data validation using **Python** and **SQL** against PostgreSQL and Oracle databases, reducing alert resolution time by **30%**.
- Collaborated with business analysts to refine reconciliation workflows and operational reporting, ensuring adherence to GDPR and audit trail requirements.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
