PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Reviewed and assessed **user-submitted data** against specific client policies, achieving a **98% accuracy rate** in identifying non-compliant content through rigorous analysis.
- Engaged with business stakeholders via **outbound phone calls** to verify information and execute updates on client platforms, resolving an average of **15 verification requests daily**.
- Managed and adhered to all **compliance requirements** and data privacy protocols, ensuring adherence to GDPR and internal client standards for sensitive information handling.
- Contributed to the enhancement of a **payments operations dashboard** by implementing automated alerting for failed transactions, reducing manual oversight by **40%**.
- Automated data validation and reporting tasks using **Python scripting**, decreasing report generation time from 4 hours to 30 minutes and improving data consistency.
- Supported and integrated with **ERP and enterprise business systems**, coordinating change control management for system updates and ensuring smooth post-go-live operations.

SKILLS

Data Analysis & Moderation – Content Review, Accuracy Assessment, Policy Adherence, Data Verification, Outbound Communication, Compliance Management, GDPR

Programming & Scripting – Python, Java, Spring Boot, SQL

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Data Visualization & BI – Power BI, Tableau, DAX, Power Query, Data Modelling

Databases – PostgreSQL, MySQL, Oracle

Enterprise Systems – ERP Support, System Integrations, Change Management

Observability & Support – Splunk, Dynatrace, Incident Response, Production Support

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Customer Content Moderation & Policy Enforcement Platform

- Developed a content moderation workflow to review and assess user-generated data against evolving client policies, achieving an average **98.5% accuracy** in identifying policy violations.
- Implemented automated data verification processes using **Python** and custom scripts, reducing manual data entry and validation time by **35%** for business stakeholders.

- Integrated with client platforms via REST APIs to update verified information and flagged content, processing over **1,000 updates per week** while strictly adhering to compliance standards.

Financial Services Transaction Monitoring Dashboard

- Enhanced a payments operations dashboard to provide real-time monitoring of transaction flows and operational alerting for failed payment messages, improving issue detection time by **20%**.
- Utilized **SQL** across PostgreSQL and Oracle to perform data validation and extract data for reconciliation workflows, ensuring data integrity for financial operations.
- Collaborated with cross-functional teams to define requirements and support User Acceptance Testing (UAT) for new dashboard features, ensuring alignment with business needs.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
