PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed critical incident queues and resolved system errors for validated **Analytical Laboratory Systems**, reducing average resolution time by **20%** through cross-team collaboration and vendor escalation.
- Administered user accounts and performed periodic **Audit Trail Reviews** for laboratory applications, ensuring compliance with **GMP** standards and maintaining data integrity.
- Provided front-line **Level 1 support** to laboratory personnel, troubleshooting system errors and documenting resolutions to improve knowledge base article coverage by **15%**.
- Supported the deployment of system content updates and conducted end-user training sessions for new laboratory application features, enhancing user adoption rates by **25%**.
- Collaborated with global teams to address complex system issues, acting as the main point of contact on-site for the Laboratory System Helpdesk and facilitating timely issue resolution.
- Developed and maintained Python scripts for automating data extraction and reporting from laboratory systems, improving data availability for quality control analysis by **30%**.

SKILLS

Core Technologies – Microsoft Windows Operating Systems (Windows 7 & Windows Server 2003/2008), Linux, Shell Scripting, Cron Jobs.

Application Support – LIMS, GMP Essential Labware, Analytical Laboratory Systems, Incident Management, Audit Trail Review, User Administration.

Scripting & Automation – Python, Bash Scripting.

Cloud & Monitoring – AWS (EC2, S3, Lambda, CloudWatch), Splunk, Dynatrace.

Development Practices – Java Spring Boot, REST APIs, Git, Jenkins, Docker.

Database Technologies – SQL (PostgreSQL, MySQL, Oracle).

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Validated Laboratory System Enhancement and Support Platform (HCL Technologies)

- Enhanced the stability of validated laboratory systems by implementing proactive monitoring and automated health checks, achieving a **99.8%** system uptime and reducing critical incidents by **20%**.
- Developed a Python-based data pipeline to streamline the export of QC data for regulatory reporting, reducing manual data handling effort by **40%** and ensuring adherence to **GMP** requirements.

- Managed the end-to-end support lifecycle for laboratory applications, including user administration, access control reviews, and collaboration with global vendor support teams for issue resolution.

ERP Integration & Change Management for Financial Operations (HCL Technologies)

- Facilitated system configuration updates and coordinated User Acceptance Testing (UAT) for critical ERP modules, ensuring successful post-go-live transitions with zero critical defects.
- Developed and maintained REST APIs to enable cross-system data flows between the ERP and operational platforms, supporting seamless integration across interconnected business systems.
- Managed change control processes for system updates, performing pre-implementation analysis and post-implementation validation to maintain system integrity and operational continuity.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
